<b>Introduction. A Brief History and Variety of Games for Serious Purposes</b> . . . . .	xiii
Stéphane GORIA	
<b>Chapter 1. Serious Games: Human or Animal Invention?</b> . . . . .	1
Julian ALVAREZ	
1.1. Introduction. . . . .	1
1.2. Biological approaches to play . . . . .	3
1.2.1. Biological functions of play. . . . .	3
1.2.2. Play and genetic coding . . . . .	3
1.2.3. Paidia and child development stages . . . . .	4
1.3. Inter-species play frameworks. . . . .	6
1.3.1. Matching . . . . .	6
1.3.2. Inter-species play matrices . . . . .	7
1.4. Serious Play in nonhuman animals? . . . . .	10
1.4.1. Eopadia, from play to utility . . . . .	10
1.4.2. Does Serious Play precede Play?. . . . .	10
1.4.3. Beyond instinctive Serious Play . . . . .	11
1.4.4. Serious Games and formal situations . . . . .	12
1.5. Concluding discussion . . . . .	13
1.6. References . . . . .	15

<b>Chapter 2. The Neurotechnological Future of Video Games: The Contribution of Science Fiction to Prospective Thinking on the Post-Metaverse</b> . . . . .	17
Thomas MICHAUD	
2.1. <i>Free Guy</i> and the revolt of an artificial life in a video game . . . . .	19
2.2. Artificial life and video games . . . . .	20
2.3. The Frankenstein complex and fear of artificial intelligence . . . . .	21
2.4. <i>Ultimate Game</i> and video games by nanoneurotechnologies . . . . .	24
2.5. A telepathic video game in the <i>Black Mirror</i> series . . . . .	26
2.6. Neuralink, a pioneer in neurotechnology . . . . .	27
2.7. Neuroethics, video games and science fiction . . . . .	28
2.8. Conclusion . . . . .	30
2.9. References . . . . .	32
<b>Chapter 3. Ludopedagogy Told by a Sponge</b> . . . . .	35
Julian ALVAREZ	
3.1. Introduction. . . . .	35
3.2. Ludicization or when the sponge becomes a game. . . . .	36
3.3. Sponge toy and playing with the sponge. . . . .	38
3.4. The sponge goes from toy to game with rules . . . . .	39
3.5. A sponge, a game and a utilitarian aim: several possibilities. . . . .	40
3.6. The sponge, two sides for serious play. . . . .	42
3.7. Gamified sponge. . . . .	43
3.8. When the sponge absorbs the commercial license . . . . .	45
3.9. Conclusion . . . . .	46
3.10. References. . . . .	48
<b>Chapter 4. Actual Plays: When the Tabletop Role-Playing Game Gains Media Coverage</b> . . . . .	51
Ugo ROUX	
4.1. Introduction. . . . .	51
4.2. Materials and methods . . . . .	54
4.3. “Spectating” role-playing . . . . .	55
4.3.1. Sophisticated preparation . . . . .	56
4.3.2. Interacting with spectators . . . . .	61
4.4. Conclusion . . . . .	65
4.5. References . . . . .	66

<b>Chapter 5. Tabletop Role-Playing as a Gamification of a Case Study in Management Control</b> . . . . .	71
Rémi MARTIN and Frédéric FAVRE-FÉLIX	
5.1. Pedagogical issues . . . . .	71
5.1.1. Context . . . . .	71
5.1.2. Management simulation and role-playing . . . . .	72
5.1.3. Case study versus pedagogical role-play . . . . .	72
5.2. Description and application methodology . . . . .	73
5.2.1. Transforming the case study into an RPG . . . . .	73
5.2.2. Correspondence between RPG material and pedagogical RPG material . . . . .	75
5.2.3. Pedagogical RPG implementation . . . . .	75
5.3. The benefits of edutainment practices . . . . .	76
5.3.1. Role-playing as a means of embodying pedagogical content . . . . .	77
5.3.2. Role-playing as a modifier of interactions between players in the learning process . . . . .	78
5.3.3. Role-playing as an integrator of new reward cycles . . . . .	80
5.4. Synthesis and assessment of classroom feedback . . . . .	81
5.4.1. End-of-session questionnaire . . . . .	81
5.4.2. Non-majority but noteworthy positive points . . . . .	81
5.4.3. Non-majority but noteworthy negative points . . . . .	81
5.4.4. Evolution of the assessment system . . . . .	82
5.5. Conclusion . . . . .	82
5.6. References . . . . .	83
<b>Chapter 6. Variety and Contribution of Agile Games to Organizational Innovation</b> . . . . .	85
Stéphane GORIA	
6.1. Introduction . . . . .	85
6.2. Agility and agile methods . . . . .	86
6.3. Serious games and agile games . . . . .	89
6.4. The agile games package . . . . .	90
6.5. Description of the most frequent games . . . . .	93
6.5.1. Icebreaker and/or team-building games . . . . .	93
6.5.2. Games to help complete a task . . . . .	95
6.5.3. Games for understanding agile elements, principles or methods . . . . .	96
6.6. Conclusion . . . . .	100
6.7. References . . . . .	100

**Chapter 7. Serious Games as a Provocative Research Method? . . . 105**

Hélène MICHEL, Zeinab SHEET and Guy PARMENTIER

7.1. Play as a research laboratory. . . . .	107
7.1.1. Conducting exploratory research within a preexisting game . . . . .	108
7.1.2. Testing and measuring specific conditions in a specially created game. . . . .	108
7.1.3. Provoking a transformative approach through play . . . . .	109
7.2. Case study of play as a provocative method: putting participants in a situation of failure to assess their creativity . . . . .	110
7.2.1. The subject of the experimental protocol: failure . . . . .	112
7.2.2. Provocative sequence . . . . .	114
7.2.3. Data collection and analysis. . . . .	117
7.2.4. Protocol results . . . . .	118
7.2.5. Lessons on the effect of exposure to failure . . . . .	121
7.3. Discussion: mobilizing play as a provocative research method . . . . .	122
7.4. Conclusion: the researcher as agent provocateur? . . . . .	122
7.5. References . . . . .	123

**Chapter 8. Serious Games and Decision-Making in the  
Context of Hospital Cybersecurity . . . . . 127**

Natalia ZWARTS and Niek Jan VAN DEN HOUT

8.1. Introduction. . . . .	127
8.2. Introduction to cybersecurity challenges for hospital management. . . . .	129
8.2.1. Introduction to the healthcare sector and role of IT . . . . .	130
8.2.2. The IT environment of hospitals . . . . .	131
8.3. Introduction to hospital specific cybersecurity risks . . . . .	131
8.3.1. Terrorist attacks against hospitals . . . . .	133
8.4. Serious games for cybersecurity . . . . .	134
8.5. Microgames methodology . . . . .	135
8.5.1. Microgame hospital management . . . . .	136
8.5.2. Scenarios . . . . .	138
8.5.3. Debriefing . . . . .	141
8.6. Results. . . . .	141
8.7. Conclusions. . . . .	143
8.8. Limitations . . . . .	143
8.9. Discussion . . . . .	144
8.10. References. . . . .	144

---

<b>Chapter 9. Wargames and Their Practices Within Military Organizations</b> . . . . .	149
Stéphane GORIA	
9.1. Wargaming and wargames . . . . .	149
9.2. History and main features of the wargame . . . . .	150
9.2.1. From the origins of war simulation games to proto-wargames . . . . .	150
9.2.2. Development of the map wargame ( <i>Kriegsspiel</i> ) and its first successes . . . . .	151
9.2.3. Emergence of free, rigid and civil variants . . . . .	153
9.2.4. Significant changes during the 20th century . . . . .	155
9.2.5. Current professional forms . . . . .	157
9.3. Wargames and computing . . . . .	159
9.3.1. Summary of the emergence of computing in the world of wargames . . . . .	159
9.3.2. Some disadvantages and risks of computerizing professional wargames . . . . .	160
9.3.3. Some advantages of computerizing professional wargames . . . . .	161
9.4. The ongoing search for balance . . . . .	163
9.5. References . . . . .	163
<b>Chapter 10. A Tabletop Game Hijacked to Build Managerial Theories</b> . . . . .	169
Fabrice CAUDRON	
10.1. Introduction . . . . .	169
10.2. Game-based training for young cooperative training managers . . . . .	170
10.2.1. Pedagogical device and learning context . . . . .	170
10.2.2. Edutainment for training in collaborative management . . . . .	171
10.3. The method: play first, theorize later . . . . .	172
10.3.1. Step 1: play . . . . .	173
10.3.2. Step 2: feedback . . . . .	174
10.3.3. Step 3: theorizing . . . . .	176
10.4. Benefits of the pedagogical system . . . . .	182
10.4.1. A game for theorizing . . . . .	182
10.4.2. Openness to new managerial theories . . . . .	183
10.5. Conclusion . . . . .	184
10.6. References . . . . .	184

<b>Chapter 11. Educational Innovation Through FLOSS Serious Gaming</b> . . . . .	187
Philippe LÉPINARD and Julien MENIER	
11.1. Introduction . . . . .	187
11.2. Serious gaming . . . . .	188
11.3. Pedagogical uses of Minetest/Luanti . . . . .	190
11.3.1. Deployment in courses . . . . .	192
11.3.2. International collaborative e-learning project (COIL). . . . .	194
11.3.3. Mod development . . . . .	194
11.4. Results and discussion. . . . .	195
11.4.1. Evaluation of the IS project management course . . . . .	195
11.4.2. International projects . . . . .	197
11.4.3. Putting Minetest/Luanti into perspective . . . . .	198
11.5. Conclusion . . . . .	201
11.6. References. . . . .	201
<b>Chapter 12. Digital Games to Build a Knowledge Base</b> . . . . .	205
Mathieu LAFOURCADE and Nathalie LE BRUN	
12.1. Introduction . . . . .	205
12.2. Games to build lexico-semantic resources . . . . .	206
12.3. The challenge is to attract players and ensure data quality . . . . .	209
12.3.1. Generating motivation, fostering addiction.... . . . .	209
12.3.2. Consensus, fun and free: the keys to a quality resource. . . . .	210
12.4. The JeuxDeMots project: acquisition and consolidation. . . . .	210
12.4.1. JeuxDeMots, the collectible word game. . . . .	213
12.4.2. Sémintox, the game that blows you away. . . . .	215
12.4.3. MICE for GWAP . . . . .	219
12.5. The resource obtained and the playful ways in which it is built up . . . . .	220
12.5.1. The lexico-semantic network of JeuxDeMots . . . . .	220
12.5.2. Some aspects of game design . . . . .	221
12.5.3. Some innovative projects using the JeuxDeMots resource. . . . .	223
12.6. Conclusion . . . . .	226
12.7. References. . . . .	226
<b>Chapter 13. Games as a Basis for Automatic Analogy Analysis</b> . . . . .	233
Mathieu LAFOURCADE, Nathalie LE BRUN and Jérémie ROUX	
13.1. Introduction . . . . .	233
13.2. Analogical square . . . . .	234

---

13.2.1. Analogy and similarity . . . . .	235
13.2.2. Symbol chains and analog equation . . . . .	237
13.2.3. Metaphors and similes, analogies to find . . . . .	237
13.2.4. Some examples of analogies and their relevance . . . . .	237
13.2.5. What semantic information?. . . . .	238
13.3. JeuxDeMots and Analogia . . . . .	239
13.3.1. JeuxDeMots principle . . . . .	239
13.3.2. Analogia . . . . .	241
13.3.3. Analogia game mechanics . . . . .	244
13.4. Intersector . . . . .	245
13.4.1. Intersector game mechanics . . . . .	246
13.4.2. Example of a discussion with IAI (Intersector) . . . . .	246
13.5. Conclusion . . . . .	250
13.6. Appendix: some representative analogies . . . . .	250
13.7. References. . . . .	256
<b>Chapter 14. Serious Games and Design Thinking: A Possible Combination?</b> . . . . .	259
Julian ALVAREZ	
14.1. Introduction . . . . .	259
14.2. <i>Flee the Skip</i> . . . . .	260
14.2.1. Description of the game . . . . .	260
14.2.2. Experiment . . . . .	262
14.2.3. Results . . . . .	262
14.3. <i>Onion Soup</i> . . . . .	263
14.3.1. Description of the game . . . . .	263
14.3.2. Description of the Design Thinking dimension . . . . .	265
14.3.3. Results . . . . .	266
14.4. Conclusion . . . . .	267
14.5. References. . . . .	268
<b>List of Authors</b> . . . . .	271
<b>Index</b> . . . . .	273
