|--|-----|
| <b>Preface</b> . . . . .                                       | vii |
| <b>Introduction</b> . . . . .                                  | ix  |
| <b>Chapter 1. Algae in Traditional Medicine</b> . . . . .      | 1   |
| 1.1. Traditional Asian medicines . . . . .                     | 1   |
| 1.1.1. Chinese medicine . . . . .                              | 1   |
| 1.1.2. Japanese medicine . . . . .                             | 8   |
| 1.1.3. Korean medicine . . . . .                               | 13  |
| 1.1.4. Vietnamese medicine . . . . .                           | 15  |
| 1.1.5. Filipino medicine . . . . .                             | 16  |
| 1.1.6. Indonesian medicine . . . . .                           | 21  |
| 1.2. Other traditional medicines . . . . .                     | 23  |
| 1.2.1. African medicine . . . . .                              | 23  |
| 1.2.2. European medicine . . . . .                             | 25  |
| 1.2.3. Medicine on the American continent . . . . .            | 31  |
| 1.2.4. Polynesian medicine . . . . .                           | 33  |
| <b>Chapter 2. Activities of Therapeutic Interest</b> . . . . . | 35  |
| 2.1. Antioxidant activities . . . . .                          | 35  |
| 2.1.1. Methodology . . . . .                                   | 35  |
| 2.1.2. Active algae extracts . . . . .                         | 37  |
| 2.2. Antibacterial activity . . . . .                          | 42  |
| 2.3. Antifungal activity. . . . .                              | 47  |
| 2.4. Antiviral activities . . . . .                            | 49  |
| 2.5. Anticoagulant and antithrombotic activity. . . . .        | 53  |
| 2.6. Anti-inflammatory activities. . . . .                     | 57  |
| 2.7. Anti-allergenic activities . . . . .                      | 62  |

|   |            |
|---|------------|
| 2.8. Antitumor activity . . . . .   | 65         |
| 2.9. Anti-cholesterol activity . . . . .  | 68         |
| 2.10. Other activities . . . . .  | 70         |
| <b>Chapter 3. Molecules</b> . . . . .   | <b>77</b>  |
| 3.1. Polysaccharides . . . . .  | 77         |
| 3.1.1. Alginates . . . . .  | 77         |
| 3.1.2. Laminarin . . . . .  | 88         |
| 3.1.3. Fucans . . . . .   | 93         |
| 3.1.4. Carrageenans . . . . .   | 97         |
| 3.1.5. Porphyrans . . . . .   | 111        |
| 3.1.6. Ulvans . . . . .   | 115        |
| 3.2. Proteins and peptides . . . . .  | 119        |
| 3.3. Lipids, fatty acids and sterols . . . . .                                    | 136        |
| 3.4. Phenolic derivatives . . . . .   | 146        |
| <b>Chapter 4. Therapeutic Development: Strategies<br/>and Limits</b> . . . . .    | <b>155</b> |
| 4.1. Epidemiological studies . . . . .  | 155        |
| 4.2. Clinical studies . . . . .   | 159        |
| 4.3. Patents . . . . .  | 163        |
| 4.4. Resource availability, accessibility and<br>biochemical variations . . . . . | 165        |
| 4.5. Perception and ignorance of the resource . . . . .                           | 172        |
| <b>Conclusion</b> . . . . .   | <b>179</b> |
| <b>References</b> . . . . .   | <b>181</b> |
| <b>Index</b> . . . . .  | <b>197</b> |
