<b>Introduction</b> . . . . .	ix
<b>Chapter 1. Game Theory and Strategic Management</b> . . . . .	1
1.1. Game theory and strategic management: semantic and/or conceptual convergences? . . . . .	1
1.2. The current position of game theory in strategic management. . . . .	7
1.2.1. Game theory and the school of positioning . . . . .	7
1.2.2. Growing interest for game theory . . . . .	13
1.3. The theoretical determinants of cooptation: borrowed from game theory . . . . .	16
1.3.1. The origin of cooptation . . . . .	16
1.3.2. Cooptative practices . . . . .	18
1.3.3. Mechanisms of value creation in the value network (value net) . . . . .	21
1.4. Conclusion. . . . .	25
<b>Chapter 2. From Static Games to Dynamic Approaches</b> . . . . .	27
2.1. Introduction . . . . .	27
2.2. Strategies and solution concepts: static games. . . . .	28
2.2.1. Decentralized concepts . . . . .	28
2.2.2. Maximin and Minimax solutions or the search for a new level of security . . . . .	41
2.3. Process of dynamic decisions: solutions concepts. . . . .	44
2.3.1. “Non-cooperative collusion” or “tacit collusion” . . . . .	45

2.3.2. Sequential games . . . . .	56
2.4. Conclusion . . . . .	69
<b>Chapter 3. Coalitions Formation . . . . .</b>	<b>71</b>
3.1. Introduction . . . . .	71
3.2. The notion of a coalition and the cooperative approach . . . . .	73
3.3. Emergence of cooperation: from collective rationality to individual rationality . . . . .	84
3.3.1. Some illustrations . . . . .	84
3.3.2. Emergence of cooperation . . . . .	86
3.4. A simple conceptual frame of analysis for cooperation: notions of internal and external stability of a coalition . . . . .	90
3.4.1. The concept of stability as a basic property of cooperation . . . . .	92
3.4.2. The stability as an equilibrium property of a game . . . . .	93
3.4.3. Examples . . . . .	96
3.4.4. The role of heterogeneities . . . . .	99
3.4.5. R&D in a context of asymmetrical firms . . . . .	103
3.5. Conclusion . . . . .	105
<b>Chapter 4. Application 1: Dieselgate . . . . .</b>	<b>107</b>
4.1. Introduction . . . . .	107
4.2. Storytelling: for those who missed the beginning . . . . .	108
4.3. Presentation of the facts and strategic reading . . . . .	110
4.4. The strategic variables and the associated game . . . . .	115
4.4.1. The rules of the game . . . . .	116
4.4.2. Payoff . . . . .	121
4.5. Game resolution and strategic analysis . . . . .	123
4.5.1. Perfect equilibrium of the game where fraud is deterred . . . . .	125
4.5.2. Perfect equilibrium with the firm committing fraud . . . . .	128
4.6. Conclusion . . . . .	134
<b>Chapter 5. Application 2: Emergence of Food Safety Standards . . . . .</b>	<b>137</b>
5.1. Introduction . . . . .	137
5.2. The game . . . . .	140
5.3. Nash equilibrium . . . . .	145
5.4. Conclusion . . . . .	154

<b>Chapter 6. Application 3: Petrol Stations</b> . . . . .	157
6.1. Introduction: price structure of a multi-store firm and fragilization of isolated competitors . . . . .	157
6.2. The facts . . . . .	157
6.3. Strategic management questions . . . . .	161
6.4. The game. . . . .	163
6.5. Price structure in the event of collusion. . . . .	165
6.6. Price war threat and game equilibrium . . . . .	171
6.7. Game equilibrium within a time horizon . . . . .	173
6.8. Conclusion. . . . .	177
<b>Chapter 7. Application 4: HD-DVD versus Blu-ray</b> . . . . .	181
7.1. Introduction: individual strategies and collective dynamics . . . . .	181
7.2. Constitution of HD-DVD and Blu-ray consortiums. . . . .	182
7.3. Definition of the game . . . . .	186
7.4. Numerical application . . . . .	191
7.5. Conclusion. . . . .	195
<b>Conclusion</b> . . . . .	199
<b>Appendices</b> . . . . .	203
<b>Appendix 1</b> . . . . .	205
<b>Appendix 2</b> . . . . .	231
<b>Bibliography</b> . . . . .	239
<b>Index.</b> . . . . .	259
