<b>Acknowledgements</b> . . . . .	ix
<b>Introduction</b> . . . . .	xi
<b>Chapter 1. The Challenge of Chronic Diseases</b> . . . . .	1
1.1. Chronic diseases . . . . .	1
1.1.1. The burden of chronic diseases . . . . .	1
1.1.2. Characteristics of chronic diseases . . . . .	3
1.1.3. The case of type 2 diabetes. . . . .	6
1.2. Management of chronic diseases . . . . .	8
1.2.1. Complex care. . . . .	8
1.2.2. Characteristics of effective care . . . . .	8
1.3. Organization of the health system and coordination . .	11
1.3.1. Organizational imbalance of the health sector. . . .	11
1.3.2. Low coordination capacities . . . . .	12
1.3.3. Coordination . . . . .	14
<b>Chapter 2. Some Alternative Schemes for the Management of Chronic Diseases</b> . . . . .	17
2.1. Cooperation systems at the initiative of professionals .	17
2.1.1. Care and health network. . . . .	17
2.1.2. A cooperative network. . . . .	18
2.1.3. Multiprofessional health home . . . . .	20
2.1.4. Care teams . . . . .	21
2.2. Cooperation systems at the initiative of insurers . . . .	23
2.3. Chronic care model . . . . .	25

---

<b>Chapter 3. Difficulties in Implementing Effective Management</b> . . . . .	29
3.1. Technical difficulties . . . . .	29
3.1.1. The nature of the information . . . . .	29
3.1.2. Communication processes . . . . .	31
3.2. Social difficulties . . . . .	32
3.2.1. Influence as a promotion means in the interest of actors . . . . .	32
3.2.2. Collaboration as a threat to actors' autonomy. . . . .	33
3.2.3. Collaboration as an opportunity. . . . .	35
3.3. Cultural difficulties . . . . .	36
<b>Chapter 4. Redefining Conditions for the Effective Management of Chronic Diseases</b> . . . . .	41
4.1. Quality of the activities involved in the patients' management . . . . .	41
4.1.1. Quality as an attribute of actors. . . . .	41
4.1.2. Quality as balance between care abilities and requirements . . . . .	42
4.2. Diversity and relevance of the range of care, services and skills that can be mobilized . . . . .	44
4.3. Cooperation of actors and coordination of their interventions. . . . .	47
4.3.1. Cooperation between actors. . . . .	47
4.3.2. Intervention coordination for chronic disease management. . . . .	48
<b>Chapter 5. Activities Specific to an Effective Management of Chronic Diseases</b> . . . . .	53
5.1. Nature of specific activities . . . . .	53
5.1.1. Specific activities linked to the quality of procedures . . . . .	54
5.1.2. Specific activities linked to the range of care and services that can be mobilized . . . . .	55
5.1.3. Specific activities linked to cooperation and coordination . . . . .	56
5.2. Implementation and funding of specific activities. . . . .	57
5.2.1. Implementation problems of specific activities . . . . .	57
5.2.2. Funding of specific activities . . . . .	57

<b>Chapter 6. Dynamic Processes for the Provision of Efficient Care</b> . . . . .	59
6.1. Deadlock and efficiency . . . . .	59
6.2. Care quality and costs . . . . .	62
6.3. System size and costs. . . . .	64
6.4. Funding of a collective system and fee-for-service . . . . .	67
<b>Chapter 7. Lump Sum Funding, Efficiency and Development</b> . . . . .	71
7.1. Different lump sum funding methods . . . . .	71
7.1.1. Budget . . . . .	71
7.1.2. Capitation. . . . .	73
7.1.3. Overall capitation . . . . .	75
7.2. Overall capitation and development . . . . .	76
7.3. Endogenous development limits. . . . .	78
<b>Chapter 8. An Illustration</b> . . . . .	83
8.1. Presentation of the care network . . . . .	83
8.2. Analysis of RSD operation and development . . . . .	87
8.2.1. Cost reduction . . . . .	88
8.2.2. Size increase . . . . .	90
8.3. Illustration scope and limits . . . . .	90
8.3.1. Point of the illustration . . . . .	91
8.3.2. Illustration limits. . . . .	93
<b>Chapter 9. From Processes to Organizational Structures</b> . . . . .	97
9.1. An organized system . . . . .	97
9.1.1. Differentiation. . . . .	97
9.1.2. Coordination . . . . .	99
9.2. Coordination practices . . . . .	101
9.3. Steering function . . . . .	104
<b>Chapter 10. Contractual Relationship Configurations</b> . . . . .	107
10.1. Structuring relationships . . . . .	107
10.1.1. Orderly coordination relationships . . . . .	107
10.1.2. Complex coordination relationships. . . . .	109
10.1.3. Contractual relationships. . . . .	111
10.2. Organizational configuration. . . . .	113

10.2.1. A structured field of action . . . . .	113
10.2.2. Areas and authorities . . . . .	114
10.2.3. Organizational dynamics. . . . .	115
<b>Chapter 11. Implementation Strategy . . . . .</b>	<b>119</b>
11.1. Two change concepts . . . . .	119
11.1.1. Synoptic change. . . . .	119
11.1.2. Strategic change . . . . .	120
11.2. The success of a doomed reform. . . . .	121
11.2.1. The 1991 British reform . . . . .	121
11.2.2. A double dynamic . . . . .	123
11.2.3. Determinants of the change dynamic . . . . .	124
11.3. Strategy elements. . . . .	125
11.3.1. Principles and action logic . . . . .	126
11.3.2. Strategic management . . . . .	129
11.3.3. Management authority . . . . .	131
<b>Chapter 12. IS in Health System Restructuring . . . . .</b>	<b>135</b>
12.1. The unbalanced organization of the health care system . . . . .	135
12.1.1. An unsuitable organization . . . . .	135
12.1.2. A dissociation movement. . . . .	137
12.2. IS in the system organization development . . . . .	138
12.2.1. Intermediary structures . . . . .	138
12.2.2. Health operator model . . . . .	139
12.3. Promoting IS . . . . .	142
12.3.1. More or less effective measures . . . . .	142
12.3.2. Structural obstacles to IS creation . . . . .	144
12.3.3. Some principles for a reform . . . . .	147
<b>Bibliography . . . . .</b>	<b>151</b>
<b>Index . . . . .</b>	<b>159</b>
