PREFACE	ix
ACKNOWLEDGMENTS	xi
INTRODUCTION	xiii
AUTHOR BIOGRAPHIES	xvii
CHAPTER 1. SESSION 1: STRUCTURES, MATERIALS AND THE ENVIRONMENT.	1
Frédéric MUTTIN, Daniel PRIOUR and Rodrigo FERNANDES.	
1.1. FEM modeling of flexible structures made of cables bars and nets	1
1.1.1. Introduction	1
1.1.2. Details of study	2
1.2. Oil-boom models and full-scale tests	5
1.2.1. Introduction	5
1.2.2. Details of study	6
1.3. Oil-Spill MOHID models	11
1.3.1 Introduction	11
1.3.2. Details of study	11
1.4. References	16

CHAPTER 2. SESSION 2: HYDRODYNAMIC MODELING AND DIFFUSION OF THE POLLUTANT	19
Frédéric MUTTIN, Mario RICCHIUTO, Imène Meriem MOSTEFAOUI, Mohktar KIRANE, Cédric GOEURY and Jean-Michel HERVOUET	
2.1. Numerical anomalies in shallow water simulations, spurious oscillations, equilibria, super-consistency and mass consistency	19
2.1.1. Introduction	19
2.1.2. Details of study	20
2.1.3. Reference works	25
2.2. A model describing the number of antibiotic-resistant bacteria in rivers	25
2.2.1. Introduction	25
2.3. Numerical modeling of oil spill drifts for operational management of risks in continental waters.	31
2.3.1. Introduction	31
2.3.2. Details of study	32
2.4. References.	36
 CHAPTER 3. ROUND-TABLE 1: SUMMARY OF STRUCTURES AND HYDRODYNAMIC SESSIONS 1-2	 39
Frédéric MUTTIN	
3.1. Objectives of the attendees.	39
3.2. Topics addressed	41
3.3. Costs and complexity of available field measurements	43
3.4. References.	44
 CHAPTER 4. SESSION 3: BIOLOGY TOXICOLOGY AND COASTAL SENSITIVITY ANALYSIS	 47
Frédéric MUTTIN, Laurent APRIN, Thomas MILINKOVITCH, Christel LEFRANÇOIS, Hélène THOMAS-GUYON, Stéphane LEFLOCH, Céline DUFFA and Hervé THÉBAULT	
4.1. Evaluation of the consequences of marine chemical accidents	47
4.1.1. Introduction	47
4.1.2. Details of study	48
4.2. Response technique for oil spills and environmental risk: toxicity of dispersant application in nearshore areas on <i>Liza</i> <i>aurata</i> (Golden grey mullet).	54

4.2.1. Introduction	54
4.2.2. Details of study	55
4.3. Sensitivity of French Mediterranean coastal zones against accidental pollutions caused by ships.	59
4.3.1. Introduction	59
4.3.2. Details of study	61
4.4. References	65
CHAPTER 5. SESSION 4: ECONOMY AND LAWS, SOCIO-ECONOMIC AND ENVIRONMENTAL SENSITIVITIES, JUDICIAL ASPECTS, CIVIL AND PENAL CHARGES FOR POLLUTION	67
Frédéric MUTTIN, Paul FATTAL and Yann RABUTEAU	
5.1. Reflections on coastline vulnerability indicators dedicated to hydrocarbon pollutions	67
5.1.1. Introduction	67
5.2. Liability and compensation regarding oil spills at sea: the case of coastal communities.	72
5.2.1. Introduction	72
5.2.2. Details of study	72
5.2.3. Related works	76
5.3. References	77
CHAPTER 6. ROUND-TABLE 2: SUMMARY OF CHEMICAL AND BIOLOGICAL IMPACTS, ECONOMY AND LAWS, SESSIONS 3–4.	79
Frédéric MUTTIN	
6.1. Topics addressed.	80
6.2. Socio-economic analysis of coastal risks	81
CHAPTER 7. MODELING A CAPTIVE UNMANNED AERIAL SYSTEM TELEDETECTING OIL POLLUTION ON THE SEA SURFACE	83
Frédéric MUTTIN	
7.1. Introduction	83
7.2. Materials	85
7.3. Method	87
7.4. Approximation of the problem	89
7.5. Results	91
7.5.1. Finite-element convergence	91
7.5.2. Analytic validation	92
7.5.3. Transient loading.	96

7.6. Conclusions	98
7.7. References	98
GENERAL CONCLUSION	101
LIST OF AUTHORS	103
INDEX	105
