<b>Preface</b> . . . . .	xi
<b>Acknowledgments</b> . . . . .	xix
<b>Chapter 1. Concepts of Electromagnetic Fields</b> . . . . .	1
1.1. Concepts of fields . . . . .	1
1.1.1. Introduction . . . . .	1
1.1.2. Electric fields . . . . .	3
1.1.3. Magnetic fields . . . . .	6
1.1.4. Introduction to electromagnetic fields . . . . .	10
1.2. Waves, frequencies and wavelengths . . . . .	12
1.2.1. Waves . . . . .	12
1.2.2. Frequencies and periods . . . . .	13
1.2.3. Wavelengths . . . . .	14
1.3. Propagation of electromagnetic waves . . . . .	15
1.3.1. Propagation in free space . . . . .	15
1.3.2. Polarization of the wave . . . . .	21
1.3.3. Near field/far field . . . . .	21
1.3.4. Propagation in a real environment . . . . .	24
1.3.5. Summary of electromagnetic waves . . . . .	25
1.4. Type of radiation . . . . .	25
1.4.1. Ionizing radiations . . . . .	26
1.4.2. Non-ionizing radiations . . . . .	27
1.4.3. Electromagnetic spectrum . . . . .	27
1.4.4. Frequency bands . . . . .	29
1.4.5. Area of exposure to electromagnetic fields . . . . .	32
1.4.6. Summary of electromagnetic radiations . . . . .	33

---

<b>Chapter 2. Sources of Electromagnetic Fields</b> . . . . .	35
2.1. Natural fields . . . . .	35
2.1.1. Electric fields . . . . .	35
2.1.2. Magnetic fields . . . . .	36
2.1.3. Electromagnetic fields . . . . .	36
2.2. Artificial fields . . . . .	36
2.2.1. Static and quasi-static fields. . . . .	37
2.2.2. Low-frequency fields . . . . .	45
2.2.3. HF fields . . . . .	59
2.2.4. Summary of sources . . . . .	86
<b>Chapter 3. Biophysical Mechanisms</b> . . . . .	89
3.1. Interactions with matter. . . . .	90
3.1.1. Matter exposed to an electric field . . . . .	91
3.1.2. Matter exposed to a magnetic field . . . . .	100
3.1.3. Summary of matter . . . . .	102
3.2. Interaction with biological tissues . . . . .	102
3.2.1. Electrical characteristics of biological tissues . . . . .	102
3.2.2. Summary of biological tissues . . . . .	106
3.2.3. Penetration of fields in biological tissues . . . . .	107
3.2.4. Wave absorption and specific absorption rate . . . . .	110
3.2.5. Summary of field absorption . . . . .	112
3.3. Coupling with the human body . . . . .	113
3.3.1. Low-frequency electric field coupling . . . . .	113
3.3.2. Low-frequency magnetic field coupling . . . . .	117
3.3.3. Electromagnetic field coupling . . . . .	118
3.3.4. Summary of coupling mechanisms . . . . .	123
<b>Chapter 4. Biological Effects of Electromagnetic Fields</b> . . . . .	125
4.1. Direct effects . . . . .	126
4.1.1. Direct effects of low-frequency fields . . . . .	127
4.1.2. Direct effects of static magnetic fields (<1 Hz) . . . . .	131
4.1.3. Direct effects at frequencies between 100 kHz and 300 GHz . . . . .	133
4.1.4. Summary of direct biological effects . . . . .	137
4.1.5. Long-term effects of electromagnetic fields . . . . .	138
4.2. Indirect effects . . . . .	149
4.2.1. General . . . . .	149
4.2.2. Indirect effects caused by contact currents . . . . .	150
4.2.3. Indirect effects caused by static magnetic fields . . . . .	152

---

<b>Chapter 5. Exposure Limits for Electromagnetic Fields</b> . . . . .	153
5.1. General considerations . . . . .	153
5.1.1. Recommendation 1999/519/EC . . . . .	155
5.1.2. Directive 2013/35/EU . . . . .	155
5.2. Low-frequency limits for direct effects . . . . .	156
5.2.1. Basic restrictions, ELVs at low frequencies . . . . .	156
5.2.2. Reference levels or action levels at low frequencies . . . . .	162
5.3. Limits for magnetic fields <1 Hz for direct effects. . . . .	175
5.3.1. Basic restrictions for static magnetic fields. . . . .	175
5.3.2. Basic restrictions for quasi-static magnetic fields . . . . .	176
5.3.3. Reference levels for static magnetic fields . . . . .	177
5.4. High frequency limits for direct effects . . . . .	178
5.4.1. High-frequency basic restrictions or ELVs. . . . .	178
5.4.2. High-frequency reference levels and action values . . . . .	181
5.4.3. Limits for induced currents . . . . .	184
5.4.4. Summary of limits for high frequencies. . . . .	186
5.5. Limits for indirect effects . . . . .	186
5.5.1. Limits for contact currents . . . . .	187
5.5.2. Limits for electric fields, indirect effects . . . . .	188
5.5.3. Limits for static magnetic fields, indirect effects . . . . .	188
5.6. Summary of exposure limits . . . . .	189
5.7. People at particular risk. . . . .	191
5.7.1. People with medical devices . . . . .	192
5.7.2. Active medical devices . . . . .	192
5.7.3. Passive medical devices . . . . .	197
5.7.4. Limits for active implants . . . . .	197
5.7.5. Pregnant women . . . . .	199
<b>Chapter 6. Exposure Indices</b> . . . . .	201
6.1. General introduction . . . . .	201
6.2. Signals and definitions . . . . .	202
6.2.1. Sinusoidal signal . . . . .	202
6.2.2. Complex signal . . . . .	203
6.2.3. rms value of a complex signal (example). . . . .	207
6.3. Introduction to exposure indices . . . . .	208
6.4. Exposure index for high-frequency fields . . . . .	208
6.4.1. Exposure to a single frequency greater than 100 kHz. . . . .	208
6.4.2. Exposure to multiple frequencies . . . . .	210
6.5. Exposure Index for low-frequency fields . . . . .	212
6.5.1. Exposure to a low-frequency sinusoidal signal . . . . .	213
6.5.2. Exposure to a signal of complex form. . . . .	214
6.5.3. Comparison of weighted peak techniques . . . . .	225

---

6.6. EIs: contact currents and induced currents . . . . .	228
6.7. Summary of exposure indices . . . . .	229
<b>Chapter 7. Applications of Exposure Indices . . . . .</b>	<b>233</b>
7.1. Introduction. . . . .	233
7.2. Theoretical signals. . . . .	234
7.2.1. Example 1: two incoherent sinusoidal signals with similar frequencies . . . . .	235
7.2.2. Example 2: signal made up of two coherent sinusoidal signals (influence of the phase) . . . . .	239
7.2.3. Example 3: signal made up of two sinusoidal signals with very different frequencies . . . . .	242
7.2.4. Example 4: burst . . . . .	244
7.2.5. Example 5: “chopped” sinusoidal signal . . . . .	246
7.2.6. Example 6: square signal . . . . .	249
7.3. Real signals. . . . .	255
7.3.1. Example 7: hand-held electric drill . . . . .	255
7.3.2. Example 8: welding gun. . . . .	259
7.3.3. Example 9: transcranial stimulation device. . . . .	264
7.4. Conclusion on the index calculation examples . . . . .	265
<b>Chapter 8. Exposure Assessment . . . . .</b>	<b>267</b>
8.1. Introduction. . . . .	267
8.1.1. Theoretical approach . . . . .	268
8.1.2. Numerical approach . . . . .	269
8.1.3. Metrological approach . . . . .	269
8.2. Measurement: general. . . . .	269
8.2.1. Process . . . . .	269
8.2.2. Measuring device requirements . . . . .	272
8.3. Measuring low-frequency fields. . . . .	275
8.3.1. General . . . . .	275
8.3.2. Measuring low-frequency magnetic fields . . . . .	276
8.3.3. Measuring a static magnetic field . . . . .	284
8.3.4. Measuring low-frequency electric fields . . . . .	285
8.4. Measuring high-frequency electromagnetic fields . . . . .	292
8.4.1. General . . . . .	292
8.4.2. Measuring sensors for electromagnetic fields . . . . .	292
8.4.3. Measuring device for high-frequency electromagnetic fields . . . . .	295
8.4.4. Measuring high-frequency electromagnetic fields. . . . .	299
8.4.5. Calibration of the measuring chain for electromagnetic fields . . . . .	301

---

8.4.6. Sources of uncertainty in measurements of HF electromagnetic fields . . . . .	301
8.5. Measuring the contact current and induced current . . . . .	304
8.5.1. Measuring the contact current (indirect effect) . . . . .	304
8.5.2. Measuring an induced current (direct effect) . . . . .	305
8.6. Introduction to dosimetry . . . . .	307
8.6.1. Definition . . . . .	307
8.6.2. Experimental dosimetry . . . . .	309
8.6.3. Theoretical dosimetry . . . . .	313
8.6.4. Summary of dosimetry . . . . .	321
<b>Chapter 9. Implementation of Directive 2013/35/EU . . . . .</b>	<b>323</b>
9.1. Context of the directive . . . . .	324
9.1.1. Introduction . . . . .	324
9.1.2. EMF directive development . . . . .	325
9.2. Implementation of the directive . . . . .	327
9.2.1. Introduction . . . . .	327
9.2.2. Preliminary phase . . . . .	328
9.2.3. Risk assessment . . . . .	334
9.2.4. Risk prevention . . . . .	346
9.2.5. Other activities . . . . .	352
<b>Appendix 1 . . . . .</b>	<b>357</b>
<b>Appendix 2 . . . . .</b>	<b>363</b>
<b>Glossary . . . . .</b>	<b>377</b>
<b>Bibliography . . . . .</b>	<b>385</b>
<b>Index . . . . .</b>	<b>397</b>
