Foreword.	xxvii
Alan Tait	
Introduction.	xxix
Ulrich Bernath, András Szücs, Alan Tait and Martine Vidal	
PART 1. THE DEVELOPMENT OF DISTANCE EDUCATION AND E-LEARNING .	1
PART 1.1. SYSTEMS DEVELOPMENT	3
Chapter 1. Challenges Facing Distance Education in the 21st Century: Policy and Research Implications.	5
Sarah Guri-Rosenblit	
1.1. Introduction.	5
1.2. Teaching/research orientation	7
1.3. Scope of operation.	8
1.4. Size and mode of operation	9
1.5. Spectrum of curricula	10
1.6. Enabling or supporting institutions?	11
1.7. Employment of digital technologies	12
1.8. Public and private operation	14
1.9. Publishing houses and open source	15
1.10. Collaboration and competition	16
1.11. Language of instruction	18
1.12. References.	19

Chapter 2. The Evolving Role of Universities: Increasing Openness and Relevance	23
Anne Gaskell and Roger Mills	
2.1. Introduction to the revised version	23
2.2. Introduction.	24
2.3. The UK context	25
2.3.1. Early successes	25
2.3.2. Less successful developments	26
2.4. Current and continuing developments	27
2.4.1. Learndirect.	27
2.4.2. The introduction of Foundation Degrees	27
2.4.3. AimHigher.	28
2.4.4. Lifelong Learning Networks	29
2.5. Delivering results?.	29
2.5.1. Widening participation.	29
2.5.2. Employability	29
2.6. Increasing lifelong learning	30
2.6.1. The curriculum	30
2.6.2. The influence of mode of study on widening participation and lifelong learning	30
2.6.3. The use of ICT in widening participation and in reducing social isolation	31
2.7. Issues for lifelong learning and distance education	32
2.8. References	32
2.9. Appendix	33
Chapter 3. The Internet and the Education System: An Optimization Policy	35
Roni Aviram	
3.1. Introduction.	35
3.2. Three views of ICT and education	36
3.3. The holistic recommended policy.	39
3.4. Democratic values and the evaluation of the ICT revolution.	40
3.5. The optimization strategy of the recommended policy	42
3.6. Conclusion	43
3.7. References	43

Chapter 4. “E-Learning” Meets “Digital Media”: New Strategic Questions for Higher Education	45
Jim Devine	
4.1. Introduction.	45
4.2. Foregrounding learning.	46
4.3. All technologies were once new: arguments for a renewed focus on media	47
4.4. Thinking differently about the “e”	48
4.5. Current generation e-learning: the rise of the Learner Management System	48
4.6. And what do students think?.	50
4.7. Forward thinking: new strategic questions for higher education.	50
4.8. Conclusion: June 2004	51
4.9. After note: February 2009	52
4.10. References.	54
Chapter 5. Preparing Educational Institutions for Online ODL. How Theory May Support Change Strategies in Traditional Universities	57
Annette Lorentsen	
5.1. Introduction.	57
5.2. New learning theories and ODL.	59
5.3. Change processes in universities based on organizational theories	61
5.4. Concluding remarks.	66
5.5. References	66
Chapter 6. Higher Education Quality as an Organizational Culture	69
Ulf-Daniel Ehlers	
6.1. Introduction.	69
6.2. Moving from regulation to culture in the quality business.	70
6.3. State of the art in organizational culture	72
6.4. A model of quality culture for higher education	75
6.4.1. Component 1: structures.	77
6.4.2. Component 2: the enabling factors.	78
6.4.3. Component 3: the quality culture component	79
6.4.4. Component 4: the transversal elements	79
6.5. Summary and conclusions	80
6.6. References	81
Chapter 7. E-learning and the Quality of Knowledge in a Globalized World	85
Sylvia van de Bunt-Kokhuis	
7.1. Introduction.	85

7.2. Homogenization of knowledge	86
7.3. The Internet era	88
7.4. Towards an ethical debate	91
7.5. Epilog: some future challenges	92
7.5.1. Credibility	92
7.5.2. E-inclusion	95
7.5.3. Multilingualism	98
7.5.4. Cross-cultural awareness	100
7.6. References	104
7.7. Epilog references	105
PART 1.2. EFFICIENCY AND EFFECTIVENESS OF DISTANCE EDUCATION AND E-LEARNING	107
Chapter 8. E-Learning and the Future of Distance Education	109
Ormond Simpson	
8.1. Introduction.	109
8.1.1. Return on investment.	110
8.1.2. Resale value of qualifications.	111
8.1.3. Risk	112
8.2. Retention in conventional distance education.	113
8.2.1. Retention in e-learning.	113
8.2.2. Markets for e-learning	114
8.3. Returns on government investment.	115
8.4. Conclusions.	116
8.5. References	116
Chapter 9. Access and Efficiency in the Development of Distance Education and E-Learning	119
Thomas Hülsmann	
9.1. Introduction.	119
9.2. Traditional distance education.	120
9.2.1. Pedagogical/instructional implications	120
9.2.2. Organizational/institutional implications	121
9.2.3. Implications in terms of cost-structure	122
9.2.4. Strengths and limitations	123
9.2.5. Access and efficiency in the traditional model.	123
9.3. ICT-based distance education and e-learning.	125
9.3.1. Digital divide or spectrum of access?	125
9.3.2. Type-c scenarios	126
9.3.3. Type-i scenarios.	128
9.3.4. Access and efficiency of ICT-based distance education and e-learning.	129

9.4. Web 2.0	130
9.4.1. Web 2.0 as a business model	130
9.4.2. Web 2.0 as bundle of technologies.	134
9.4.3. Web 2.0 as set of social practices	134
9.4.4. Access and efficiency: the impact of Web 2.0	135
9.5. Access and efficiency in the development of distance education	135
9.6. References	137
Chapter 10. Examining the Effectiveness of Distance Education: Results from Multilevel Modeling	141
Tim Seifert, Bruce Sheppard and Ann Marie Vaughan	
10.1. Method.	143
10.2. Results	145
10.3. Discussion.	148
10.4. References.	149
Chapter 11. Quantitative Cost-Effectiveness Model for Web-supported Academic Instruction	151
Anat Cohen and Rafi Nachmias	
11.1. Introduction	151
11.2. A cost effectiveness model for web-supported academic instruction	152
11.2.1. Components of the model	153
11.2.2. The computational model	154
11.3. The model development process.	158
11.4. References.	159
Chapter 12. A Particular Aspect of Cost Analysis in Distance Education: Time	161
Massimo Loi and Bruno Ronsivalle	
12.1. Introduction	161
12.2. The media equivalence hypothesis	162
12.3. Cost-effectiveness analysis: a necessity	162
12.3.1. The effectiveness aspect	162
12.3.2. The cost aspect.	164
12.4. Learning time	164
12.5. The time-effectiveness index.	165
12.6. References.	167

PART 1.3. PROFESSIONAL DEVELOPMENT	169
Chapter 13. Moving eCompetence Ahead – From Conceptual Foundations to Strategic Practice	171
Dirk Schneckenberg	
13.1. Introduction	171
13.2. The concept of action competence	174
13.3. Towards a concept of eCompetence	177
13.4. Holistic measures for faculty development	181
13.5. Methodology for the survey	183
13.6. Main findings	186
13.7. Conclusions and limitations	189
13.8. References.	192
Chapter 14. Designing Collaborative Learning for Competence Development	195
Ulf-Daniel Ehlers	
14.1. Introduction: moving from a technological to a pedagogical innovation	195
14.2. Competences: terminology and theoretical background	197
14.3. Competence development through e-learning.	199
14.4. From distribution to collaboration.	203
14.5. CSCL – a new paradigm to support competence development?	206
14.5.1. Theoretical background for collaborative learning	207
14.5.2. What makes collaborative learning effective?	209
14.5.3 Future challenges for CSCL	210
14.6. Summary and conclusion	212
14.7. References.	213
Chapter 15. Academic Staff in Traditional Universities: Motivators and Demotivators in the Adoption of E-learning	217
Kay MacKeogh and Seamus Fox	
15.1. Introduction	217
15.2. Background to the study	219
15.3. Staff concerns about e-learning and distance learning – qualitative findings	220
15.3.1. Mixed attitudes and awareness of e-learning	221
15.3.2. Potential detrimental impact on teaching of research focus	221
15.3.3. Lack of government funding for distance learning programs	221
15.3.4. Impact of increasing numbers	222
15.4. Academic staff adoption of e-learning – motivating and demotivating factors	222

15.5. Current use of e-learning technologies	224
15.6. Factors motivating and demotivating staff adoption of e-learning . . .	226
15.7. Support structures required to implement e-learning	231
15.8. Conclusion and implications	231
15.9. References.	232
Chapter 16. The Role of Tutors as a Fundamental Component of Online Learning Support	235
Maggie McPherson and Miguel Baptista Nunes	
16.1. Introduction	235
16.2. The role of the online tutor	236
16.3. Basic online tutoring skills	238
16.4. Online learning skills	240
16.5. Online learning resources and facilities	241
16.6. Conclusions	242
16.7. References.	243
Chapter 17. Teachers' Professional Development for the Technology Enhanced Classroom in the School of Tomorrow	247
Henrik Hansson	
17.1. Introduction	247
17.2. Information technology in education: the politician's perspective . . .	248
17.3. Students' and teachers' visions	250
17.4. The future school: students' perspectives	250
17.5. The future school: teachers' perspectives	252
17.6. Teachers' professional development	253
17.7. Conclusions	258
17.8. Acknowledgements	258
17.9. References.	259
Chapter 18. Eleven Competences for the Teacher Using ICTs: a Quali-quantitative Research Pattern	261
Alberto Cattaneo and Elena Boldrini	
18.1. Research and training: ICTs and professionalism in Swiss vocational education and training	261
18.1.1. Integrating ICTs in vocational training	262
18.1.2. Changing professional profiles	263
18.2. The teacher's professionalism: a territory to be explored?	264
18.2.1. Teachers' competence areas development	266
18.3. Competence: conceptual and theoretical framework	267
18.3.1. Defining competence, situation and sphere of action	268
18.4. The case study and methodology	271

18.4.1. Analysis tools for an integrated approach: Atlas.ti and Alceste.	273
18.5. Discussion.	274
18.5.1. Some results of the Atlas.ti analysis	274
18.5.2. Some results of the Alceste analysis	275
18.5.3. The comparison between the two analyses	277
18.6. The integration of the two analyses: the 11 competences profile.	278
18.7. Simplifying the whole: a categorization of the competence profile	281
18.8. Some conclusions and perspectives	284
18.9. References.	286
Chapter 19. Educating Tutors – and Ourselves. A Report from a Collective Effort	291
Ivar Børsheim, Atle Schaathun, Hans Øistein Skauerud, Unn Spjelkavik and Ilmi Willbergh	
19.1 Introduction	291
19.2 From technology to pedagogy	291
19.2.1. Three glimpses into the process – by three of us.	294
19.2.2. Building new competences	298
19.3. References.	300
PART 1.4. SOCIO-CULTURAL ISSUES OF DISTANCE AND E-LEARNING.	301
Chapter 20. Globalization – an Opportunity for the “Uneducated” to Become “Learned” or Further “Excluded”?	303
Mary Bolger	
20.1. Introduction	303
20.2. Globalization and the exacerbation of inequality	303
20.3. Communications technologies	304
20.3.1. ICTs and the information age	304
20.3.2. Technological determinism?	305
20.4. Educational provision in the information age	305
20.4.1. New modes of educational delivery	305
20.5. Access, inequality, exclusion.	306
20.5.1. Exclusion – division within societies	306
20.5.2. Globalization and the developing world.	307
20.5.3. Language as a barrier to learning	307
20.6. Conclusion	308
20.7. References.	309

Chapter 21. Beyond Barriers: Intercultural Learning and Inclusion in Globalized Paradigms.	311
Alan Bruce	
21.1. Overview	311
21.2. Globalized learning	312
21.3. European dimensions	317
21.4. Equality and diversity contexts	318
21.5. Key themes	321
21.6. References.	323
Chapter 22. Women in Distance Learning: Second Chance or Third Shift?	325
Athanasia Aggeli and Paraskevi Vassala	
22.1. Introduction	325
22.2. The factors that motivate adult women to enroll in DE programs, to select specific distance learning programs and courses	326
22.3. Barriers to participation	327
22.3.1. Conflicting responsibilities (work, family, educational, socio-political) – lack of time	327
22.3.2. Emotional barriers: guilt, fear of success, lack of confidence and self-esteem, as far as educational goals are concerned	328
22.3.3. Lack of partner support, the children and the wider family – gender stereotypes	328
22.3.4. Lack of sufficient or appropriate support from the state: cost of studies, child-care availability	329
22.3.5. Learning obstacles: undereducation, difficulty in adapting to principles, methods and tools of distance learning, women’s ways of learning	329
22.4. Strategies for reducing the barriers	330
22.4.1. Principles, methods, tools, content of distance learning education.	330
22.4.2. Supporting services	331
22.4.3. Professors, counselors	331
22.4.4. Women students and the socio-cultural context	332
22.5. Conclusions	332
22.6. References.	333
Chapter 23. E-learning for Senior Citizens	335
Sonia Hetzner and Paul Held	
23.1. Introduction	335
23.2. e-Learning for seniors: a need	336
23.3. Is e-learning suitable for elderly people?.	337

23.4. eLSe – eLearning for Seniors – a novel approach in Europe	339
23.4.1. E-inclusion and senior citizens, current status	339
23.4.2. The main eLSe development areas	340
23.4.3. The eLSe pedagogical approach	342
23.4.4. The eLSe didactic approach	343
23.4.5. Experiences gained in the first trial of the eLSe – e-learning environment	343
23.4.6. Evaluation methodology	344
23.4.7. Performing the evaluation	345
23.4.8. Main results of the evaluation	345
23.5. Conclusions	347
23.6. Outlook	347
23.7. References	348
Chapter 24. Distance Education in Prisons: an Educational Right or a Privilege? The Case of “Student Inmates”	349
Fanny Salane	
24.1. Introduction	349
24.2. The population studied: student inmates	350
24.3. Education in prison: a right.	351
24.3.1. A right proclaimed by the supranational authorities	351
24.3.2. A right guaranteed by France	352
24.3.3. Agreements between the Prisons Administration and the Ministry of Education	353
24.4. Distance education: a promoter of the right to education in prison	353
24.4.1. The organization of distance education in a prison environment	354
24.4.2. The situation of student inmates	355
24.5. Distance education and the prison environment: the establishment of privileged access to education	356
24.5.1. The need for money and material resources	357
24.5.2. Having means of accessing the outside world	359
24.5.3. Assuming control of their own education	363
24.6. Conclusion	365
24.7. References	366
PART 2. TEACHING AND LEARNING ENVIRONMENTS IN THE MAKING	369
PART 2.1. PEDAGOGICAL CONCEPTS	371
Chapter 25. Role of Technology in Enhancing Learning	373
Alan Brown	
25.1. Challenge 1: research on “technology-enhanced learning” needs to be genuinely interdisciplinary	374

25.2. Challenge 2: recognizing the value of personalizing learning but recognizing the approach has drawbacks too	376
25.3. Challenge 3: build on achievements that have already been made . . .	377
25.4. Challenge 4: implementation rather than development as the major challenge	379
25.5. Challenge 5: issues of fairness, equity and inclusion.	380
25.6. Conclusion: educational purposes – innovation – pedagogy – technology-enhanced learning	381
25.7. References.	382
Chapter 26. Learning Face-to-Face, In-action and On-line: Integrated Model of Lifelong Learning	385
Luciano Galliani and Paula de Waal	
26.1. Introduction	385
26.2. Technical–scientific education and reflective learning on practice . .	386
26.3. Social–organizational training and transformative learning.	387
26.4. Psycho/social–pedagogical education and self-directed learning . . .	387
26.5. Interaction of face-to-face, in-action and distance learning	388
26.5.1. Face-to-face education	388
26.5.2. Education in-action	389
26.5.3. Distance education	389
26.6. Integration of face-to-face, in-action and on-line education.	390
26.7. Conclusion	391
26.8. Bibliography	392
Chapter 27. The Bottles are New but What of the Wine? Managing Learning and Teaching in Web 2.0	395
Michael G. Moore	
27.1. Introduction	395
27.2. Enhancing learner autonomy.	397
27.3. Interaction with an instructor and course content are more important than with other learners	404
27.4. Conclusion	408
Chapter 28. Student Perceptions of Immediacy and Social Presence in Distance Education.	411
Steve Wheeler and Fraser Reid	
28.1. Introduction	411
28.2. Transactional distance theory	412
28.3. Previous transactional distance studies	412
28.4. Theoretical model and hypotheses	416
28.5. Method.	417

28.6. Sample	418
28.7. Results	418
28.7.1. Immediacy	418
28.7.2. Social presence	421
28.7.3. Structure	422
28.8. Summary and conclusion	424
28.9. References.	424
PART 2.2. LEARNER NEEDS, STYLES AND IDENTITIES, PERCEPTIONS, READINESS	427
Chapter 29. The Natives are Restless. Higher Education and the Culture of the Digital Natives	429
Susanne Kjekshus Koch, Inger Carin Grøndal and Gunnar-Johan Schei	
29.1. Digital natives?	430
29.1.1. What are digital natives?	430
29.1.2. Are they all native speakers?	431
29.1.3. Prosumer or digital octopus?	432
29.1.4. What about the digital immigrants?	433
29.2. Web-based learning strategies	433
29.2.1. Learning in virtual networks	434
29.2.2. Digitally proficient students	435
29.2.3. Technologically tentacled teenagers	435
29.3. Teaching the young and the restless.	436
29.4. References.	438
Chapter 30. Preparing Students for Learning in an Online World: an Evaluation of the Student Passport to eLearning (SPeL) Model	439
Francesca Lorenzi, Kay MacKeogh and Seamus Fox	
30.1. Introduction	439
30.2. Introducing technology – strategic considerations	440
30.3. The SPeL module	442
30.3.1. Phase 1: introductory module model	442
30.3.2. Phase 2: embedding SPeL approach in subject specific context.	447
30.3.3. Phase 3: improving the quality of the subject specific SPeL module	452
30.4. Conclusion	455
30.5. References.	455

Chapter 31. Perceptions about Time and Learning: Researching the Student Experience	457
Mary Thorpe	
31.1. Introduction	457
31.2. Study time and the quality of student learning	458
31.3. The learner perspective on course study and workload management	461
31.3.1. Study workload in the perception of students who drop out from their courses	461
31.3.2. Study workload in the perception of students who complete their courses	462
31.3.3. Student expectations about study hours versus actual study time	462
31.4. Study time in the context of e-learning	465
31.4.1. Synchronization versus individualization of study activity.	465
31.4.2. Structuring study time in e-learning	467
31.5. Changes in the lifestyles of university students	468
31.6. Some implications for pedagogy and research	469
31.7. References.	471
Chapter 32. Retention and Course Choice in Distance Learning.	473
Ormond Simpson	
32.1. Introduction	473
32.2. Making course choice decisions	474
32.2.1. Course titles and descriptions	474
32.2.2. Course choice guidance	475
32.2.3. Students' Comments on courses	476
32.3. Course preview materials – “taster packs”	480
32.3.1. Student feedback on taster packs	481
32.3.2. Taster packs – the cost	481
32.3.3. Taster packs – the limitations	481
32.3.4. Diagnostic materials	482
32.4. Conclusion	483
32.5. References.	483
Chapter 33. Online Students' Needs for and Satisfaction with Support Services.	485
Torstein Rekkedal	
33.1. Introduction	485
33.1.1. Definitions	486
33.1.2. NKI online distance education	486
33.2. NKI Internet College's “four generations” of development.	487
33.3. Student support in the NKI Online Distance Education System	489

33.4. Research methodology	490
33.4.1. Qualitative and quantitative survey	490
33.4.2. Collection of data	491
33.4.3. Selection of interviewees	491
33.4.4. Data processing and interpreting answers	491
33.5. Results – need for and satisfaction with student support services	492
33.5.1. Information phase	492
33.5.2. Registration phase/ start-up phase	492
33.5.3. Learning phase	493
33.6. Summary and conclusions	493
33.7. References	496
Chapter 34. Motivational Characteristics of E-Students	499
Karmela Aleksic-Maslac, Djuro Njavro, Katarina Karalic	
34.1. Introduction	499
34.2. E-Learning system at Zagreb School of Economics and Management	501
34.2.1. The necessary standards for the creation of an e-learning course	501
34.2.2. End-of-term student evaluations	505
34.3. Results and discussion	505
34.4. Conclusion	509
34.5. References	509
Chapter 35. Individual Differences in Attitudes Towards and Choices of Learning/Teaching Technology	511
Ruth Beyth-Marom and Kelly Sorozon-Saporta	
35.1. Introduction	511
35.2. Method	513
35.2.1. Design and participants	513
35.2.2. Questionnaires	513
35.3. Results	514
35.4. Summary and conclusions	518
35.5. References	518
Chapter 36. Online Learners' Frustration. Implications for Lifelong Learning	519
Federico Borges Sáiz	
36.1. Online learners' frustration	519
36.2. What can go wrong? Sources of frustration for online learners	520
36.2.1. The online student herself/himself	520
36.2.2. The instructor/trainer/tutor/teacher	521

36.2.3. The institution/firm	522
36.3. What could be done? Preventive actions	523
36.4. Conclusions	526
36.5. References.	527
Chapter 37. Reflections on Seeking the “Invisible” Online Learner (and Instructor)	529
Michael F. Beaudoin	
37.1. Introduction	529
37.2. Methodology	531
37.3. Findings	532
37.4. Discussion.	533
37.5. Reflections	534
37.5.1. Questions derived from the 2000 study	534
37.5.2. Questions not raised in the earlier study.	536
37.6. Conclusions	539
37.7. References.	541
Chapter 38. Reports of the “Death of Geography” Have Been Greatly Exaggerated: Why UK Distance Learning Students Prefer Face-to-Face Tuition	543
Troy Cooper	
38.1. Introduction	543
38.2. What do OUUK distance students find attractive in face-to-face teaching?	544
38.3. Does orientation to study affect tutorial attendance rates?	547
38.4. Discussion.	548
38.4.1. Fitting the demand characteristics of teaching and learning to mode of contact	548
38.4.2. “Everyone remembers a good teacher”: the focus on the teacher in conventional models of teaching and learning.	549
38.4.3. The immediacy of trust in face-to-face contact.	549
38.5. Conclusion: the need to align teaching mode with total learning context.	550
38.6. References.	550
Chapter 39. E-Mentoring to Help Mature Students’ Transition to University	553
Palitha Edirisingha, Mike Hill, Celayne Heaton-Shrestha	
39.1. Introduction	553
39.2. The context	554
39.3. Current approaches to supporting students’ preparation for HE	555

39.4. eAccess – a pilot for Access students	556
39.5. Evaluating eAccess	557
39.5.1. Contribution to learning and learners	557
39.5.2. Implications of e-learning for the wider teaching and learning context.	558
39.5.3. Barriers to embedding a VLE in an FE college	560
39.5.4. Factors contributing to student and staff engagement with a VLE	562
39.6. Concluding remarks and further developments	562
39.7. Postscript	563
39.8. Acknowledgements	564
39.9. References.	564
PART 2.3. COURSE DEVELOPMENT AND INSTRUCTIONAL DESIGN	567
Chapter 40. Flexibility Beyond Time and Place: Stretching and Opening the Course	569
Wim de Boer and Betty Collis	
40.1. The changing context in higher education	569
40.2. Flexibility as a key concept in higher education	570
40.3. From dimensions to a framework	571
40.4. Validating the flexibility dimensions	573
40.5. Applications of the flexibility framework	576
40.6. References.	577
Chapter 41. Capturing Practice and Scaffolding Learning Design.	579
Gráinne Conole	
41.1. Introduction	579
41.2. Research focus	580
41.3. Learning design	580
41.4. Building on existing learning design research.	582
41.4.1. Capturing and representing practice	582
41.4.2. Supporting learning design	583
41.5. The OU Learning Design project	584
41.6. Summary of the findings from the case studies	585
41.7. Idealized tool specification.	587
41.8. An update on OULDI	589
41.9. Conclusion	590
41.10. Acknowledgements	591
41.11. References.	591

Chapter 42. Technologies in Use: How Context and Design Drive their Effects	595
Mary Thorpe, Steve Godwin and Rebecca Fergusson	
42.1. Introduction	595
42.2. The research method.	596
42.3. Case study 1: structured, task-specific conferencing, assignment marks allocated	596
42.4. Case Study 2: online tutorials for all students, timed for the start of topic study	598
42.5. Case Study 3: tutor group discussion, marks allocated in two assignments	600
42.6. Discussion.	601
42.7. Acknowledgement	604
42.8. References.	604
Chapter 43. Involvement, Institutional Roles and Design Models in E-Learning	607
Luca Botturi	
43.1. Introduction	607
43.2. Context of the study	608
43.3. Method.	610
43.3.1. Structured interview questions	610
43.3.2. Graphic interview	611
43.3.3. Data elaboration	612
43.4. Personal involvement and institutional roles	614
43.5. Design models and practice	618
43.5.1. ELab theory and practice.	618
43.5.2. UOC theory and practice.	620
43.5.3. Meeting points in team work	621
43.5.4. Shared knowledge over time	622
43.6. Conclusions and outlooks.	624
43.7. References.	625
Chapter 44. Diversity of Strategies to Promote Effective B-Learning: a Case Study in Higher Education	627
Lúcia Pombo, Maria Joao Loureiro, Ana Balula and António Moreira	
44.1. Introduction	627
44.1.1. Description of the Educational Software Evaluation (ESE) module.	629
44.2. Empirical study – results and considerations	633
44.3. Reflections and final comments	640
44.4. References.	643

Chapter 45. Assessment of E-Learning Material with the INTERFACE System	645
Károly Hercegfı and Orchidea Edith Kiss	
45.1. Introduction	645
45.2. Short description of the INTERFACE methodology and workstation	646
45.3. Applying INTERFACE to multimedia system evaluation.	647
45.4. Methodology	648
45.5. Examples of user interface problems identified with the INTERFACE system	651
45.5.1. A usability problem which we originally intended to focus on	651
45.5.2. An unexpected usability problem.	651
45.6. Further development of the INTERFACE methodology and workstation and applying it to study designers editing e-learning materials	655
45.7. Summary of experiences gained through the use of the INTERFACE system.	656
45.8. Acknowledgments	657
45.9. References.	657
Chapter 46. Who Should “Customize” the Knowledge Content: Publishing Scholars or Online Mediators?.	659
Christian Bois	
46.1. Introduction	660
46.2. Scholarly publications as knowledge content for online learners	660
46.2.1. The crisis of scientific publication	660
46.2.2. Great expectations for online education	661
46.2.3. When texts are in publicly accessible archives	661
46.2.4. An “invisible college” for evaluating documents	662
46.2.5. New practices for knowledge documents and technical issues	667
46.3. The type of document pertinent to the learner and publishing scholar’s habits	668
46.4. To whom does a publishing researcher write?	669
46.5. Customizing upstream or downstream?	669
46.5.1. Motivations and obstacles upstream	669
46.5.2. When the job is done elsewhere	669
46.5.3. Motivations and obstacles downstream	672
46.6. The need for transnational knowledge, customization studies and actions	672
46.7. Conclusion	672
46.8. References.	673

PART 2.4. COLLABORATIVE LEARNING AND SOCIAL NETWORKING	675
Chapter 47. "More is Different" – How E-Learning within Online Learning Communities Can Make the Difference	677
Virginie Aimard	
47.1. Introduction	677
47.2. From community to online learning community	678
47.2.1. More is different – or "what is a community?"	679
47.2.2. What is a community of learning?	679
47.2.3. What is a community of practice?	681
47.2.4. What is a virtual community?	682
47.2.5. What is an online learning community?	683
47.3. Looking into community processes	683
47.4. Conclusion	688
47.5. References.	689
Chapter 48. SocialLearn – Widening Participation and Sustainability of Higher Education	691
Anthony Walton, Martin Weller and Gráinne Conole	
48.1. Introduction	691
48.2. Learning in social networks	692
48.3. The SocialLearn project.	695
48.4. Sustainability and the higher education environment	697
48.5. Conclusion	698
48.6. Acknowledgements	698
48.7. References.	699
Chapter 49. Collaborative Learning Using Social Tools for Enquiry, Reflection and Sharing	701
Non Scantlebury	
49.1. Methodology	701
49.1.1. Outline of activities and outcomes	702
49.1.2. Selecting the project toolset and support	704
49.2. Capturing the learning from the project	705
49.2.1. Knowledge management.	705
49.2.2. Identity management	706
49.2.3. Technological limitations	706
49.2.4. The need for enthusiasm and groupwork to secure engagement.	706
49.2.5. Balancing physical and virtual presence.	707
49.2.6. Broadening the capturing of reflective practice	707
49.3. Conclusion	708
49.4. References.	709

Chapter 50. Modeling Interactions in Learning Settings and their Impact on the Learning Process	711
George Neofotistos, Nikitas Kastis, Eleftheria Tsourlidaki and Nikos Voulgarakis	
50.1 Introduction	711
50.2 The Bordogna–Albano (B-A) model	712
50.2.1. The tutor–learner interaction term	713
50.2.2. The learner–learner interaction term	713
50.2.3. The learner–learning resource interaction term	714
50.2.4. Implementing the learning dynamics	714
50.2.5. The effect of group structure on the learning outcome	715
50.3. Conclusions	719
50.4. References.	719
Chapter 51. Tools and Instruments Supporting Cooperative Freedom in Virtual Learning Environments	721
Morten Flate Paulsen	
51.1. Introduction	721
51.2. Individual, cooperative and collaborative learning	722
51.3. Voluntary, but attractive, participation	724
51.4. Means promoting individual flexibility.	725
51.4.1. Individual progress plans	726
51.4.2. Supervision of individual progress plans	729
51.4.3. Flexibility in time is best supported by asynchronous communication.	731
51.4.4. Cooperative forums	731
51.4.5. Submission system	732
51.4.6. Supervision of teacher response time	733
51.5. Means promoting affinity to learning communities	734
51.5.1. Student catalogs	734
51.5.2. Learner profiles	735
51.5.3. Learning partners	738
51.5.4. Cooperative assignments.	738
51.5.5. Cooperative assessment	739
51.5.6. Cooperative gating (COG).	739
51.5.7. Cooperative quality control and evaluation of the provider	740
51.6. Conclusions	741
51.7. References.	741
Chapter 52. Models of Activity, Collaboration and Assessment in Wikis in Academic Courses	745
Edna Tal-Elhasid and Hagit Meishar-Tal	
52.1. Introduction	745

52.2. Models of activity	746
52.2.1. Glossary	746
52.2.2. Text analysis	747
52.2.3. Inquiry-based learning	747
52.2.4. Answers to questions	747
52.3. Models of collaboration	748
52.3.1. Sharing	748
52.3.2. Cooperation	748
52.3.3. Collaboration	748
52.3.4. Peer assessment	749
52.3.5. Mixed model	749
52.4. Extent that activity is mandatory	750
52.5. Models of assessment	751
52.5.1. Group versus individual assessment	751
52.5.2. Product versus process assessment	752
52.5.3. Quantitative versus qualitative assessment	753
52.5.4. Rubric for assessing wiki activity	753
52.6. How to design a wiki learning assignment	755
52.7. Summary and conclusions	756
52.8. References	756
PART 2.5. THE WORLD OF WORK – E-SKILLS AND EMPLOYABILITY	759
Chapter 53. E-learning and Earning: The impact of Lifelong E-learning on Organizational Development in an Adverse Economy	761
Jane Simmons	
53.1. Introduction	761
53.2. What is lifelong learning?	762
53.3. The environment within which lifelong learning takes place	765
53.4. Employer perspectives	767
53.5. Employee perspectives	767
53.6. Conclusions	769
53.7. References	771
Chapter 54. E-learning and E-business: The Need for SMEs to Work Smarter in the New Europe	773
Josephine Browne and Georgina Sweetnam	
54.1 Introduction	773
54.2 SMEs in Europe	773
54.3 SMEs and eBusiness – European competitiveness and inhibitors	775
54.3.1. The case of micro enterprise Owner Managers: short on time, finance and expertise	776
54.4. SMEs and e-learning – the roadmap to competitive advantage	778

54.5. Conclusions	780
54.6. References.	780
Chapter 55. Putting the Pieces Together: Conceptual Frameworks for Building PLEs with Web 2.0 Tools	783
Ricardo Torres Kompen, Palitha Edirisingha and Richard Mobbs	
55.1. Rationale.	783
55.2. The relevance of PLEs to higher education	785
55.3. What is a PLE – views and definitions	786
55.4. Pros and cons of PLEs.	787
55.5. Limitations of current guidance on developing PLEs	788
55.6. Approaches to developing PLEs.	790
55.6.1. PLE as an object.	790
55.6.2. PLE as a framework	791
55.6.3. PLE frameworks – our proposals.	791
55.6.4. Some guidelines for building a PLE with Web 2.0 tools	800
55.7. Pilot study.	801
55.8. Concluding remarks and further work	803
55.9. The future is mobile! A mobile PLE	804
55.10. Acknowledgements	806
55.11. References.	806
Chapter 56. Personal Learning Environments and Institutional Control	809
Niall Sclater	
56.1. Introduction	809
56.2. Client software, single websites or multiple websites?	811
56.3. Personal learning environments accessed by web browsers.	812
56.4. Are personal learning environments here already?	813
56.5. Reports of the death of the virtual learning environment have been greatly exaggerated.	814
56.6. Conclusion	816
56.7. References.	819
List of Authors	821
Institution Index	833
Name Index	837
Index	853
