<b>Foreword by Yvon Le Maho</b> . . . . .	ix
<b>Foreword by Thomas Lesueur</b> . . . . .	xiii
<b>Introduction</b> . . . . .	xv
<b>Chapter 1. Photovoltaics: Concepts and Challenges</b> . . . . .	1
1.1. Brief description of the different photovoltaic cell technologies . . . . .	1
1.1.1. Photovoltaic versus thermal solar panels . . . . .	9
1.2. Different types of photovoltaic installations . . . . .	9
1.3. Legislation . . . . .	10
1.4. Advantages of photovoltaics . . . . .	11
1.5. Disadvantages of photovoltaics . . . . .	12
1.6. Some figures on the environmental footprint compared to other energy sources . . . . .	13
1.7. Origin of the silicon needed for the construction of photovoltaic cells . . . . .	16
1.8. End of life of solar panels . . . . .	17
1.9. Degree of maturity of material recycling . . . . .	17
1.10. Location and mode of development of photovoltaics . . . . .	18
1.10.1. Photovoltaic panels on roofs . . . . .	18

1.10.2. Ground-mounted photovoltaic panels: creating solar fields on unused industrial wastelands and parking lots . . . . .	26
1.10.3. Creating solar fields in arid areas . . . . .	32
1.10.4. Creating photovoltaic parks on water . . . . .	35
<b>Chapter 2. Photovoltaic Energy Production and Agricultural Activity: Agrivoltaics . . . . .</b>	<b>37</b>
2.1. Definition–legislation–adaptation and evolution of techniques . . . . .	38
2.2. Food crops . . . . .	45
2.2.1. Fish farming . . . . .	46
2.2.2. Oyster farming . . . . .	47
2.2.3. Viticulture . . . . .	49
2.2.4. Arboriculture and fruit production . . . . .	50
2.2.5. Field crops . . . . .	53
2.2.6. Market gardening: shades, greenhouses, protective structures for environmental conditions . . . . .	54
2.2.7. Other crops . . . . .	55
2.2.8. Pasture and livestock . . . . .	57
<b>Chapter 3. Innovative Principle of Ecovoltaics . . . . .</b>	<b>63</b>
3.1. Definition and concept . . . . .	63
3.2. State of the art: feedback . . . . .	64
3.2.1. Constraints of the experimental site in Occitanie . . . . .	64
3.2.2. Planting of species of interest in biodynamic agriculture on the grounds of solar parks . . . . .	69
3.2.3. Planting of melliferous species . . . . .	81
3.2.4. Installation of regionally endangered species . . . . .	88
3.2.5. Installation of medicinal species . . . . .	89
3.3. Assessment – issues . . . . .	91
3.3.1. Positive impact on soil quality . . . . .	91
3.3.2. Positive impact on faunal biodiversity . . . . .	93
3.4. Perspectives . . . . .	97
3.4.1. Regulations for the marketing of plants or plant extracts for use in biodynamic agriculture . . . . .	97

<b>Appendices</b> .....	103
<b>Appendix 1</b> .....	105
<b>Appendix 2</b> .....	113
<b>Appendix 3</b> .....	115
<b>References</b> .....	121
<b>Index</b> .....	135
