<b>Foreword to the 2nd Edition</b> . . . . .	xi
Serge AMABILE and Régis MEISSONIER	
<b>Foreword to the 1st Edition</b> . . . . .	xv
Laurent BIBARD	
<b>Introduction</b> . . . . .	xix
<b>Part 1. Governing the Stakeholders</b> . . . . .	1
<b>Introduction to Part 1</b> . . . . .	3
<b>Chapter 1. IS Stakeholders</b> . . . . .	5
1.1. The technological environment of IS stakeholders, and its development . . . .	6
1.2. Impact of the developing technologies on organizational management. . . . .	8
1.3. Understanding and categorizing the human stakeholders in IS . . . . .	11
1.3.1. The days of the pioneers . . . . .	11
1.3.2. The birth of the IS manager, a change in status . . . . .	12
1.3.3. Organizing functions around IS governance . . . . .	14
1.3.4. Extending IS from internal stakeholders to external stakeholders . . . . .	17
<b>Chapter 2. From Global Governance to IS Governance</b> . . . . .	21
2.1. From organizational governance to IS governance . . . . .	22
2.1.1. COSO standards. . . . .	23
2.1.2. The Sarbanes–Oxley Act. . . . .	24
2.2. Defining IS governance . . . . .	25
2.3. IS governance in an outsourcing strategy . . . . .	28
2.3.1. The scope of outsourcing and the stakeholders involved . . . . .	29
2.3.2. A dual strategy . . . . .	30

2.3.3. Transactional governance . . . . .	31
2.4. IS governance in a resource pooling strategy . . . . .	32
2.4.1. Hybrid forms between hierarchy and market . . . . .	32
2.4.2. Self-organized forms . . . . .	35
2.5. IS governance in a co-management strategy with stakeholders . . . . .	37
2.5.1. The forgotten stakeholders . . . . .	38
2.5.2. Recognizing stakeholder contributions . . . . .	39
2.5.3. A multifaceted approach with a strong HR emphasis . . . . .	40
2.6. Open innovation-type software . . . . .	42
2.7. Exercise: PingPongApp . . . . .	42
<b>Chapter 3. IS Governance in Practice . . . . .</b>	<b>45</b>
3.1. IS governance organizational models . . . . .	46
3.1.1. Centralized governance . . . . .	46
3.1.2. Decentralized governance . . . . .	47
3.1.3. Federal governance . . . . .	48
3.1.4. Internal software and computing service-type governance . . . . .	49
3.2. IS governance benchmarks . . . . .	50
3.2.1. Control objectives for information and related technology (COBIT) . . . . .	51
3.2.2. Enterprise value, governance of IT investments (ValIT) . . . . .	52
3.2.3. IT framework for management of IT-related business risks (RiskIT) . . . . .	53
3.2.4. Global technology audit guide (GTAG) . . . . .	54
3.2.5. Information technology infrastructure library (ITIL) . . . . .	54
3.2.6. International electro-technical commission (ISO/IEC) . . . . .	55
3.2.7. Specific benchmarks . . . . .	55
3.3. Implement a best practice benchmark . . . . .	57
3.4. Exercise: GreenNRJ . . . . .	59
<b>Part 2. Urbanizing the Territories . . . . .</b>	<b>63</b>
<b>Introduction to Part 2 . . . . .</b>	<b>65</b>
<b>Chapter 4. The IS Territory . . . . .</b>	<b>67</b>
4.1. The territory . . . . .	67
4.2. Organizational and microeconomic territory . . . . .	69
4.2.1. The hierarchical–functional territory . . . . .	70
4.2.2. The territory of business processes . . . . .	74
4.3. Organizational territory and mesoeconomics . . . . .	77
4.4. The IS territory . . . . .	80
4.5. The IS territory and the organization’s territory . . . . .	83
4.5.1. The IS territory and the hierarchical pyramid . . . . .	84
4.5.2. IS territory and functional silos . . . . .	85

---

4.6. The IS territory and process systems engineering. . . . .	87
4.7. Alignment between the firm's territory and the IS territory . . . . .	91
4.8. Representing the IS territory . . . . .	96
4.9. Unified modeling language (UML) . . . . .	98
4.9.1. Process modeling . . . . .	99
4.9.2. Function modeling . . . . .	100
4.9.3. Modeling information content . . . . .	100
4.9.4. Modeling software applications . . . . .	101
4.9.5. Modeling the hardware . . . . .	103
4.10. Exercise: Linky and Enedis' IS territory . . . . .	103
<b>Chapter 5. Territorial Urbanization . . . . .</b>	<b>107</b>
5.1. Urbanization . . . . .	107
5.2. Urbanization of ISs . . . . .	110
5.3. Urbanization: approaches and objectives . . . . .	112
5.3.1. Understanding the existing IS . . . . .	112
5.3.2. Defining the target IS and the associated trajectory . . . . .	114
5.3.3. Providing the tools to steer development . . . . .	115
5.3.4. The IS urbanization approach proposed by CIGREF and IFACI . . . . .	115
5.3.5. The urbanization process, software packages and ERP . . . . .	117
5.4. The planner's job . . . . .	118
5.5. The limits. . . . .	119
5.6. IS urbanization and the ecological transition . . . . .	120
5.7. Exercise: urbanization of France's government IS . . . . .	122
<b>Chapter 6. Urbanizing the Inter-organizational IS. . . . .</b>	<b>125</b>
6.1. Inter-organizational territory . . . . .	125
6.1.1. Inter-organizational territories and the value chain: the sectorial chain . . . . .	126
6.1.2. Inter-organizational territories and the value chain: the ecosystem. . . . .	128
6.2. Inter-organizational territory of the IS . . . . .	131
6.2.1. The extended IS. . . . .	132
6.2.2. The cooperative IS . . . . .	133
6.3. Alignment and representation of the inter-organizational IS territory. . . . .	139
6.4. Urbanization of an inter-organizational IS. . . . .	139
6.4.1. Cloud computing . . . . .	141
6.4.2. Computing standards . . . . .	143
6.4.3. Blockchain. . . . .	146
6.4.4. Free software . . . . .	147
6.4.5. Open data . . . . .	149
6.5. Exercise: AGK. . . . .	149

---

<b>Part 3. Project Alignment</b> . . . . .	153
<b>Introduction to Part 3</b> . . . . .	155
<b>Chapter 7. IS Project Management</b> . . . . .	157
7.1. Strategy of IS projects . . . . .	157
7.1.1. The strategic plan . . . . .	157
7.1.2. Business department's strategy . . . . .	158
7.1.3. Operational project governance . . . . .	158
7.1.4. Budget management . . . . .	159
7.1.5. Quality system . . . . .	160
7.2. Roll-out of a traditional IS project . . . . .	160
7.2.1. Defining, researching and initializing the project . . . . .	160
7.2.2. Developing and building the IS solution . . . . .	161
7.2.3. Management and roll-out of the IS solution . . . . .	162
7.2.4. Project assessment . . . . .	162
7.3. Agile IS projects: a development methodology, a process and a philosophy . . . . .	163
7.3.1. An empirical, iterative, incremental approach . . . . .	165
7.3.2. The conditions of success of agile projects . . . . .	166
7.4. DevOps: making the link between IS developments and IS department procedures . . . . .	168
7.5. Security in IS projects . . . . .	170
7.5.1. Risk parameter assessment . . . . .	170
7.5.2. Risk analysis . . . . .	171
7.5.3. Security in development . . . . .	172
7.5.4. Security for putting into production and deployment: towards a permanent watch . . . . .	173
7.6. Exercise: cybersecurity in projects, managing tomorrow's threats . . . . .	174
<b>Chapter 8. Technology, Alignment and Strategic Transformation</b> . . . . .	177
8.1. The alignment of stakeholders, territories and projects . . . . .	178
8.2. Strategic alignment . . . . .	179
8.3. Competition, technological revolutions and new strategies . . . . .	181
8.4. Strategic transformation linked to ISs and new technologies . . . . .	185
8.5. Towards a dynamic perspective of strategic transformation linked to the IS . . . . .	188
8.6. Exercise: TechOne: Big Data and the Cloud . . . . .	189

---

<b>Chapter 9. Auditing ISs.</b> . . . . .	191
9.1. What is an audit?. . . . .	191
9.1.1. A need for measurement: alignment by audit. . . . .	191
9.1.2. IS auditing practices . . . . .	193
9.2. The IS and auditing . . . . .	195
9.2.1. IS internal audits . . . . .	195
9.2.2. IS external audits . . . . .	196
9.3. The audit process . . . . .	198
9.3.1. Structuring an IS audit project . . . . .	199
9.4. Scope of the audit . . . . .	201
9.4.1. Domains and processes audited . . . . .	202
9.5. Audit repositories . . . . .	203
9.6. Towards an approach via the risks of strategic alignment? . . . . .	204
9.7. Conclusion . . . . .	206
9.8. Exercise: an auditor's view . . . . .	206
<b>Conclusion</b> . . . . .	209
<b>Glossary</b> . . . . .	219
<b>References</b> . . . . .	227
<b>Index</b> . . . . .	237
