Foreword to <i>Géopolitique de l'énergie</i> Published in 2008 – A Tribute to Jean-Marie Chevalier	xi
Introduction	xv
Chapter 1. The North American Continent	1
1.1. Introduction	1
1.2. Very high energy consumption	2
1.3. Energy transition in North America	6
1.4. Electricity and renewable energies	9
1.4.1. Organization and regulation of the American electricity market.	10
1.4.2. Nuclear energy	11
1.4.3. Renewable energies.	12
1.5. Oil.	12
1.5.1. Development of rail transport	13
1.5.2. Canada and Mexico.	14
1.6. Natural gas	16
1.7. Coal: an important energy source in the United States	20
1.8. Agro-fuels in North America	20
1.9. The United States' energy policy.	21
1.9.1. American foreign policy and supply security.	23
1.9.2. Donald Trump's energy policy	23
1.9.3. Joe Biden's energy policy	24
1.9.4. The regulatory framework: an overview	25
1.10. Geopolitics: relations with Saudi Arabia	26
1.11. Iraq: American intervention	27
1.12. Tensions with Venezuela	28
1.13. Russia: complex relations	29

1.14. Caspian Sea: a good swing supplier	30
1.15. The lifting of sanctions against some producing countries	30
1.16. Relations with Iran	31
1.17. Conclusion	32
Chapter 2. The South American Continent	33
2.1. Introduction	33
2.2. The current energy situation	34
2.3. Energy transition.	36
2.4. Fossil fuels: oil.	38
2.4.1. Venezuela	38
2.4.2. Brazil.	42
2.4.3. Other oil producing countries	43
2.4.4. The role of state-owned companies	44
2.4.5. Oil refining	46
2.5. Fossil fuels: natural gas	46
2.6. Fossil fuels: coal	47
2.7. Electricity.	47
2.8. Renewable energies	48
2.9. Regional integration.	50
2.10. China's relations with Central and South America	51
2.11. Geopolitical issues	51
2.11.1. Omnipresence of the large American neighbor	52
2.11.2. Venezuela's gamble.	53
2.11.3. Colombia: the end of the civil war.	53
2.11.4. Bolivia: gas	54
2.11.5. Brazil: presalt resources.	55
2.11.6. Argentina: a never-ending crisis	55
2.12. Conclusion	56
Chapter 3. Europe	57
3.1. Introduction	57
3.2. Energy in Europe	58
3.3. The energy transition	61
3.4. Electricity and renewable energies	63
3.4.1. Nuclear power.	64
3.4.2. Renewable energy	65
3.4.3. Organization and regulation of the gas and electricity markets	66
3.5. Oil.	67
3.6. Natural gas	68
3.7. Coal	69

3.8. Energy policy in Europe	70
3.8.1. EU security of supply	70
3.8.2. European strategy for supply security	72
3.9. Relations between Europe and Russia: the case of gas	73
3.10. Relations between Europe and North Africa	76
3.11. Relations with the Middle East	78
3.12. Conclusion	79
Chapter 4. The Commonwealth of Independent States	81
4.1. Introduction	81
4.2. The energy scene	81
4.3. The energy transition in the Commonwealth of Independent States	84
4.4. The importance of oil	84
4.4.1. CIS reserves	84
4.4.2. The situation of the oil and gas industry in Russia before the collapse of the Soviet Union	85
4.4.3. The return of Russia to the international oil scene	86
4.5. The importance of natural gas	88
4.6. The role of coal	90
4.7. Electricity	90
4.8. Geopolitics of oil and gas exports from Russia and the CIS	92
4.8.1. Ukraine and Belarus: the former keys to Russian exports	92
4.8.2. Russian gas exports to Europe: who depended on whom?	94
4.8.3. Russia: the continuing search for viable routes for its hydrocarbon exports	96
4.8.4. Central Asia: diversifying exports	99
4.9. Vladimir Putin's policies	101
4.10. Conclusion	102
Chapter 5. Africa	103
5.1. Introduction	103
5.2. Energy in Africa: too little consumption	104
5.3. The energy transition in Africa	105
5.4. Electricity in Africa	106
5.4.1. Access to electricity: a major challenge	106
5.4.2. Electrification of Africa	108
5.5. Oil in Africa: discoveries and reserves	109
5.5.1. Oil in North Africa	109
5.5.2. Oil in West Africa	111
5.5.3. Oil in Central and East Africa	113

5.6. Natural gas: good potential for export	117
5.7. Coal in Africa	119
5.8. Petroleum products: Africa's main energy source	120
5.8.1. Atypical use of oil	120
5.8.2. The refining paradox	122
5.8.3. Oil revenue and development	123
5.8.4. Oil exploration and production: players in the Gulf of Guinea	124
5.8.5. Oil exploration and production: players in the east	125
5.8.6. Oil exploration and production: various types of players	127
5.9. Africa: a very attractive zone	130
5.10. The increasing power of civic society: the Shell Nigeria case	130
5.11. The problem of financial transparency	134
5.12. Conclusion	135
Chapter 6. Asia-Pacific	139
6.1. Introduction	139
6.2. Asia's energy situation	140
6.3. Energy transition in Asia	141
6.4. Oil	144
6.4.1. Reserves and production	144
6.4.2. Consumption	144
6.4.3. Oil imports constantly increasing	146
6.5. Natural gas	147
6.6. Coal	150
6.6.1. Coal production and consumption in Asia-Pacific.	150
6.6.2. Coal and the environment	152
6.7. Electricity.	153
6.7.1. A new Indian nuclear policy	155
6.7.2. The Mekong River: rivalries for a substantial regional energy source.	155
6.8. Agro-fuels and geothermal energy in Asia	157
6.9. How to secure Asia's energy supplies?	158
6.9.1. Asia's dependence	158
6.9.2. China's energy policy	159
6.9.3. Japan's energy policy.	160
6.10. The risks from increased competition	162
6.11. Conclusion	165
Chapter 7. The Middle East	167
7.1. Introduction	167
7.2. Energy consumption.	168
7.3. Energy transition in the Middle East	169

7.4. The importance of oil in the Middle East	170
7.4.1. The first discoveries	172
7.4.2. Huge reserves	173
7.5. The Middle East oil story	173
7.5.1. The United States and Saudi Arabia: an old and close partnership.	173
7.5.2. The first oil shock.	174
7.5.3. The second oil shock and the events of the 1980s	175
7.5.4. The First Gulf War	177
7.5.5. The Second Gulf War.	180
7.5.6. The recent situation.	181
7.5.7. Europe's position	182
7.6. The rivalry between Saudi Arabia and Iran	182
7.7. Analysis of positions by country	183
7.7.1. Saudi Arabia.	183
7.7.2. Kuwait and the United Arab Emirates	184
7.7.3. Iran	185
7.7.4. Iraq	187
7.7.5. Qatar	187
7.7.6. Yemen and Oman.	188
7.8. Oil revenues and how they are used	188
7.9. The importance of natural gas	189
7.10. Electricity: a major challenge	191
7.10.1. Electricity	191
7.10.2. Nuclear energy.	192
7.11. Conclusion	192
