3.2.1. Earthquakes	115
3.2.2. Tsunamis	120
3.2.3. Eruptions	127
Chapter 4. The Atmosphere and the Oceans	133
4.1. Meteorological phenomena, climate change	134
4.2. Atmosphere and meteorology	137
4.2.1. Global and local model	138
4.2.2. Scale descent	142
4.3. Oceans and climate	145
4.3.1. Marine currents	145
4.3.2. Climate	155
Chapter 5. Energies	165
5.1. The technical dream	165
5.2. Combustion	168
5.3. Nuclear energy	173
5.3.1. Dual-use energy	173
5.3.2. At the heart of nuclear fission	176
5.3.3. Developing nuclear fusion	183
5.4. New energies	188
5.4.1. Hydroelectricity	189
5.4.2. Wind energy	193
Chapter 6. The Human Body	199
6.1. A digital medicine	200
6.2. Medical data	206
6.2.1. Medical imaging	206
6.2.2. Genetic information	211
6.3. Mechanical behavior of muscles and organs	215
6.4. Blood circulation	216
6.4.1. Blood microcapsules	218
6.4.2. Angioplasty simulation	219
6.5. Cosmetics	227
6.6. Neurosciences	228
Chapter 7. Individuals and Society	237
7.1. Calculated choices	238
7.2. A question of style	241
