Introduction: The P.S.I. Approach to Thinking About the Meaning of Innovation	xi
Marianne!CHOUTEAU, Joëlle FOREST and Céline NGUYEN	
Chapter 1. Thinking About the Meaning of Innovation.	1
Joëlle FOREST!	
1.1. Introduction.	1
1.2. Why bring up the question of meaning?	2
1.2.1. The meaning of innovation: an old question	2
1.2.2. The illusion of meaning	5
1.3. The P.S.I. approach (<i>Penser le Sens de l'Innovation</i>)	14
1.3.1. The question of meaning considered from the point of view of direction and signification	14
1.3.2. The P.S.I. approach: a philosophy of and for action	20
1.4. References	25
Chapter 2. Curiosity Killed the Cat	29
Marianne CHOUTEAU!	
2.1. Introduction.	29
2.2. Origins, functions, definitions.	29
2.2.1. The origins of observation: ethnology, anthropology and sociology	29
2.2.2. Did you say “observation”?	31
2.3. Observing in order to innovate	33
2.3.1. What existing approaches tell us	34
2.3.2. Observation and the P.S.I. approach.	36
2.4. Applications	42

2.4.1. Proven know-how	43
2.4.2. Observing in order to find an idea: allowing yourself to be surprised.	47
2.4.3. Observing in order to identify the problem.	48
2.4.4. Checking your idea/concept.	49
2.5. Conclusion	50
2.6. References	50
Chapter 3. Identifying and Defining a Meaningful Problem	53
Céline NGUYEN!	
3.1. Introduction.	53
3.2. The “problem” of the problem.	54
3.2.1. The problem in design science	54
3.2.2. Design Thinking, or defining the problem from the user’s point of view	56
3.2.3. Sociological extensions around the user	58
3.3. What are the issues of meaning about the problem?	61
3.3.1. A central issue: avoiding failures	61
3.3.2. Textbook case studies	62
3.4. What should we do?	68
3.4.1. Informing the problem: monitoring tools	69
3.4.2. Defining the problem well.	74
3.5. Conclusion	78
3.6. References	78
Chapter 4. Outlining the Meaning of Innovation Using Cartography	81
Marianne CHOUTEAU	
4.1. Introduction.	81
4.2. History, definitions and concepts	81
4.2.1. Some historical elements	81
4.2.2. Definitions and concepts.	83
4.3. Issues linked to cartography in regard to innovation.	86
4.3.1. Outlining trends using cartography, getting inspired, finding meaning with mood boards	86
4.3.2. Outlining to represent user needs using cartography	88
4.3.3. Outlining the imaginary using cartography.	89
4.4. Applications	92
4.4.1. Mapping the world of the object to get inspiration and thinking about the meaning of innovation.	92

4.4.2. Mapping the imaginary to think about the political meaning of innovation	92
4.4.3. Mapping the imaginary to experiment with ethics	94
4.4.4. Comparing the designer's signification of innovation with the user's signification of innovation via the empathy map	96
4.5. Conclusion	96
4.6. References	96
Chapter 5. Bringing Meanings to Life	99
Joëlle FOREST	
5.1. Introduction.	99
5.2. Creativity representations	100
5.2.1. From the register of the inexplicable.	101
5.2.2. . . . to creativity as a process	103
5.2.3. Russian doll processes	105
5.2.4. Updating creative rationality	106
5.3. Creativity issues	108
5.3.1. Creativity and business performance	108
5.3.2. Incremental versus radical innovation.	110
5.4. Key ingredients for creativity	112
5.4.1. Getting beyond the fixation effect	113
5.4.2. Encouraging unexpected connections	115
5.4.3. Suspending judgment and opening up the field of possibilities	116
5.4.4. The art of selection	116
5.5. Conclusion	120
5.6. References	121
Chapter 6. In Search of Hidden or Lost Meaning	125
Céline NGUYEN	
6.1. Introduction.	125
6.2. Collecting data through interviews	125
6.2.1. A method that dates back more than a century.	126
6.2.2. Innovation management	127
6.3. Thoughts on the meaning of an innovation: some examples	129
6.3.1. Validating the signification of need from an existing product.	130
6.3.2. Interpreting signification for society: back to the videophone.	130
6.4. Applications	132
6.4.1. Encouraging the assignment of meaning	132
6.4.2. Organizing and analyzing meaning	134
6.4.3. Accessing meaning	141

6.5. Conclusion	144
6.6. References	144
Chapter 7. Intermediary Representations as a Vector for Thinking About the Meaning of Innovation	147
Joëlle FOREST	
7.1. Introduction.	147
7.2. From the representation of the product to that of the meaning of innovation	148
7.2.1. Multiple representation modes mobilized in design.	149
7.2.2. From the representation of functions to that of the meaning of the innovative concept	152
7.3. Issues of intermediary representations in the innovation process	154
7.3.1. Intermediary representations at the service of the designer	154
7.3.2. Intermediary representations at the service of the actors involved in the design process	156
7.3.3. Intermediary representations to test signification with users	157
7.3.4. Economic and societal stakes of intermediary representations in design	159
7.4. Implementations	160
7.4.1. Acting to think	161
7.4.2. Think to act	163
7.4.3. Developing the test procedure	165
7.5. Conclusion	167
7.6. References	168
Chapter 8. What if Innovation were Recounted to Me?	171
Marianne CHOUTEAU and Céline NGUYEN	
8.1. Introduction.	171
8.2. Narrative functions	172
8.2.1. Universality and functions of the narrative.	172
8.2.2. Strong links between innovation and stories	173
8.2.3. What other approaches do with storytelling	175
8.3. Issues and examples for thinking about meaning.	178
8.3.1. For the designer, inspiring stories	179
8.3.2. Storytelling to understand the signification of a problem	179
8.3.3. Stories to generate meaning for society	180
8.4. Applications	183
8.4.1. Choosing the direction of innovation with a fictional corpus (for the designer)	183

8.4.2. Excluding directions from a fictional corpus (for the designer)	184
8.4.3. Writing prospective narratives to think about the future of society (for the designer)	185
8.4.4. Writing narratives to understand the user’s intended signification	186
8.4.5. Enhancing an innovative concept using storytelling	187
8.5. Conclusion	188
8.6. References	188
Conclusion	191
Marianne CHOUTEAU, Joëlle FOREST and Céline NGUYEN	
Index	197
