Preface	xv
Konstantinos N. ZAFEIRIS, Yiannis DIMOTIKALIS, Christos H. SKIADAS, Alex KARAGRIGORIOU and Christiana KARAGRIGORIOU-VONTA	
Part 1.	1
Chapter 1. A Topological Clustering of Variables	3
Rafik ABDESSELAM	
1.1. Introduction	3
1.2. Topological context	5
1.2.1. Reference adjacency matrices	7
1.2.2. Quantitative variables.	7
1.2.3. Qualitative variables	7
1.2.4. Mixed variables	9
1.3. Topological clustering of variables – selective review	9
1.4. Illustration on real data of simple examples	10
1.4.1. Case of a set of quantitative variables.	10
1.4.2. Case of a set of qualitative variables	14
1.4.3. Case of a set of mixed variables	17
1.5. Conclusion	19
1.6. Appendix	20
1.7. References	23
Chapter 2. A New Regression Model for Count Compositions	25
Roberto ASCARI and Sonia MIGLIORATI	
2.1. Introduction	25
2.1.1. Distributions for count vectors.	26

2.2. Regression models and Bayesian inference	29
2.3. Simulation studies	30
2.3.1. Fitting study	30
2.3.2. Excess of zeroes.	32
2.4. Application to real electoral data	34
2.5. References	37
Chapter 3. Intergenerational Class Mobility in Greece with Evidence from EU-SILC	39
Glykeria STAMATOPOULOU, Maria SYMEONAKI and Catherine MICHALOPOULOU	
3.1. Introduction	39
3.2. Data and methods	41
3.3. The trends of class mobility between different birth cohorts.	45
3.4. Conclusion	52
3.5. References	52
Chapter 4. Capturing School-to-Work Transitions Using Data from the First European Graduate Survey	55
Maria SYMEONAKI, Glykeria STAMATOPOULOU and Dimitris PARSANOGLOU	
4.1. Introduction	55
4.2. Data and methodology	57
4.3. Results	58
4.4. Conclusion	63
4.5. References	64
Chapter 5. A Cluster Analysis Approach for Identifying Precarious Workers	67
Maria SYMEONAKI, Glykeria STAMATOPOULOU and Dimitris PARSANOGLOU	
5.1. Introduction	67
5.2. Data and methodology	68
5.3. Results	70
5.4. Conclusion and discussion	74
5.4.1. Declarations	74
5.5. References	75
Chapter 6. American Option Pricing Under a Varying Economic Situation Using Semi-Markov Decision Process	77
Kouki TAKADA, Marko DIMITROV, Lu JIN and Ying NI	
6.1. Introduction	77
6.2. American option pricing	79

6.3. Exercising strategies.	80
6.3.1. Setting parameter	80
6.3.2. Relationship between the American option price and economic situation i	82
6.3.3. Relationship between the American option price and the asset price s	83
6.3.4. Relationship between the American option price and maturity T	83
6.3.5. Relationship between the American option price and transition probabilities P	84
6.3.6. Consideration of the optimal exercise region.	87
6.4. Conclusion	89
6.5. References	89
Chapter 7. The Implementation of Hierarchical Classifications and Cochran's Rule in the Analysis of Social Data	91
Aggeliki YFANTI and Catherine MICHALOPOULOU	
7.1. Introduction	91
7.2. Methods	95
7.3. Results	96
7.4. Conclusion	101
7.5. References	102
Chapter 8. Dynamic Optimization with Tempered Stable Subordinators for Modeling River Hydraulics	105
Hidekazu YOSHIOKA and Yumi YOSHIOKA	
8.1. Introduction	105
8.2. Mathematical model.	108
8.3. Optimization problem.	109
8.4. HJBI equation: formulation and solution	111
8.5. Concluding remarks	115
8.6. Acknowledgments	116
8.7. References	116
Part 2.	119
Chapter 9. Predicting Event Counts in Event-Driven Clinical Trials Accounting for Cure and Ongoing Recruitment.	121
Vladimir ANISIMOV, Stephen GORMLEY, Rosalind BAVERSTOCK and Cynthia KINEZA	
9.1. Introduction	122
9.2. Modeling the process of event occurrence.	123

9.2.1. Estimating parameters of the model	124
9.3. Predicting event counts for patients at risk	127
9.3.1. Global prediction	128
9.4. Predicting event counts accounting for ongoing recruitment	129
9.4.1. Modeling and predicting patient recruitment	129
9.4.2. Predicting event counts	130
9.4.3. Global forecasting event counts at interim stage	132
9.5. Monte Carlo simulation	133
9.6. Software development	133
9.6.1. R package design	134
9.6.2. R package input data required	136
9.7. R package and implementation in a clinical trial	138
9.7.1. Introduction	138
9.7.2. Key predictions	138
9.7.3. Plots and parameter estimates	138
9.8. Conclusion	140
9.9. References	141
Chapter 10. Structural Modeling: An Application to the Evaluation of Ecosystem Practices at the Plot Level	143
Dominique DESBOIS	
10.1. Introduction	143
10.2. Structural equation modeling using partial least squares	144
10.2.1. Specification of the internal model	146
10.2.2. Specification of the external model	146
10.2.3. Validation statistics for the external model	147
10.2.4. Overall validation of structural modeling	148
10.3. Material and method	150
10.3.1. Agro-ecological context of the study	150
10.3.2. Data	152
10.3.3. The structural model and the estimation	152
10.4. Results and discussion	154
10.4.1. Checking the block one-dimensionality	155
10.4.2. Fitting the external model and assessing the quality of the fit	155
10.4.3. The structural model after revision	157
10.5. Conclusion	161
10.6. References	161

Chapter 11. Lean Management as an Improvement Factor in Health Services – The Case of Venizeleio General Hospital of Crete, Greece 163

Eleni GENITSARIDI and George MATALLIOTAKIS

11.1. Introduction	164
11.2. Theoretical framework	164
11.3. Purpose of the research	168
11.4. Methodology	168
11.5. Research results	168
11.6. Conclusion	175
11.7. References	176

Chapter 12. Motivation and Professional Satisfaction of Medical and Nursing Staff of Primary Health Care Structures (Urban and Regional Health Centers) of the Prefecture of Heraklion, Under the Responsibility of the 7th Ministry 179

Mihalis KYRIAKAKIS and George MATALLIOTAKIS

12.1. Introduction	180
12.2. Methodology and material	180
12.2.1. Research tools for measuring motivation and professional satisfaction for this work	180
12.2.2. Purpose and objectives of the research	181
12.2.3. Material and method	181
12.2.4. Statistical analysis	182
12.3. Results	182
12.4. Discussion	194
12.5. Conclusion	196
12.6. References	197

Chapter 13. Developing a Bibliometric Quality Indicator for Journals Applied to the Field of Dentistry 199

Pilar VALDERRAMA, Ana M. AGUILERA and Mariano J. VALDERRAMA

13.1. Introduction	199
13.2. Methodology	200
13.3. Discussion and conclusion	206
13.4. Acknowledgments	207
13.5. Appendix	208
13.6. References	210

Chapter 14. Statistical Process Monitoring Techniques for Covid-19	211
Emmanouil-Nektarios KALLIGERIS and Andreas MAKRIDES	
14.1. Introduction	211
14.2. Materials and methods	212
14.3. Behavior of Covid-19 disease in the Mediterranean region	214
14.4. Conclusion	218
14.5. Acknowledgments	221
14.6. References	221
Part 3.	223
Chapter 15. Increase of Retirement Age and Health State of Population in Czechia	225
Tomáš FIALA, Jitka LANGHAMROVÁ and Jana VRABCOVÁ	
15.1. Introduction	225
15.2. Data and methodological remarks	227
15.3. Statutory retirement age	228
15.4. Development of the state of health of population	230
15.5. Development of the state of health of population in productive and post-productive ages	232
15.6. Conclusion	234
15.7. Acknowledgment.	235
15.8. References	235
Chapter 16. A Generalized Mean Under a Non-Regular Framework and Extreme Value Index Estimation.	237
M. IVETTE GOMES, Lígia HENRIQUES-RODRIGUES and Dinis PESTANA	
16.1. Introduction	237
16.2. Preliminary results in the area of EVT for heavy tails and asymptotic behavior of MO_p functionals.	239
16.2.1. A brief review of first- and second-order conditions	239
16.2.2. Asymptotic behavior of the Hill EVI-estimators	240
16.2.3. Asymptotic behavior of MO_p EVI-estimators under a regular framework	241
16.2.4. A brief reference to additive stable laws.	241
16.2.5. Asymptotic behavior of EVI-estimators under a non-regular framework	242
16.3. Finite-sample behavior of MO_p functionals	243

16.4. A non-regular adaptive choice of p and k	247
16.5. Concluding remarks	248
16.6. References	248
Chapter 17. Demography and Policies in V4 Countries	251
Michaela KADLECOVÁ, Filip HON and Jitka LANGHAMROVÁ	
17.1. Introduction	251
17.2. Demographic development in the V4 countries	252
17.3. Development of fertility and family policy	255
17.4. Pension systems of the Visegrad Four countries.	258
17.5. Prediction of future development of V4 populations	261
17.6. Conclusion	265
17.7. Acknowledgments	266
17.8. References	267
Chapter 18. Decomposing Differences in Life Expectancy with and without Disability: The Case of Czechia	271
David MORÁVEK, Tomáš BĚLOCH and Jitka LANGHAMROVÁ	
18.1. Introduction	271
18.2. Methodology and data	273
18.3. Main results	276
18.3.1. Effect of mortality	278
18.3.2. Effects of mortality and health	279
18.4. Conclusion	281
18.5. Acknowledgments	282
18.6. References	283
Chapter 19. Assessing the Predictive Ability of Subjective Survival Probabilities	285
Apostolos PAPACHRISTOS and Georgia VERROPOULOU	
19.1. Introduction	285
19.1.1. Actual mortality patterns	286
19.1.2. Objectives of the study	286
19.2. Methods	286
19.2.1. Data	286
19.2.2. Force of subjective mortality	287
19.2.3. Variables	291
19.2.4. Statistical modeling	291

19.3. Results.	292
19.3.1. Sample	292
19.3.2. Multivariable analyses	294
19.4. Discussion.	297
19.5. Conclusion	298
19.6. Acknowledgments	298
19.7. References	299
Chapter 20. Exploring Excess Mortality During the Covid-19 Pandemic with Seasonal ARIMA Models	303
Karl-Heinz JÖCKEL and Peter PFLAUMER	
20.1. Introduction	304
20.2. Binomial mortality model and the empirical distribution of daily deaths in Germany	305
20.3. Non-seasonal ARIMA model for weekly data in Germany.	307
20.4. Seasonal ARIMA models of weekly deaths for Spain, Germany and Sweden	311
20.5. Measuring excess mortality, especially in Spain, Germany and Sweden	322
20.6. Forecasting daily deaths in Germany	324
20.7. Conclusion	330
20.8. Appendix	331
20.8.1. Estimation results of the other age classes	331
20.8.2. Time series decomposition	332
20.9. References	334
Chapter 21. The Impact of Cesarean Section on Neonatal Mortality in Rural–Urban Divisions in a Region of Brazil	337
Carlos SANTOS and Neir PAES	
21.1. Introduction	338
21.2. Materials and methods	339
21.2.1. Multilevel logistic model	340
21.3. Results and discussion	341
21.4. Conclusion	345
21.5. References	346
Chapter 22. Analysis of Alcohol Policy in Czechia: Estimation of Alcohol Policy Scale Compared to EU Countries.	349
Kornélia SVAČINOVÁ, Markéta Majerová PECHHOLDOVÁ and Jana VRABCOVÁ	
22.1. Introduction	350
22.2. Literature review	351
22.3. Methods	352

22.4. Results	354
22.5. Discussion	359
22.6. Conclusion	360
22.7. Acknowledgment	360
22.8. References	360
Chapter 23. Alcohol-Related Mortality and Its Cause-Elimination in Life Tables in Selected European Countries and USA: An International Comparison	363
Jana VRABCOVÁ, Markéta Majerová PECHHOLDOVÁ and Kornélia SVAČINOVÁ	
23.1. Introduction	364
23.2. Data and methods	365
23.3. Alcohol consumption in European countries by the OECD	367
23.4. Czechia	369
23.5. Poland	369
23.6. Belarus	371
23.7. Russia	371
23.8. France	371
23.9. USA	371
23.10. Conclusion	374
23.11. Acknowledgment	375
23.12. References	375
Chapter 24. Labor Force Aging in the Czech Republic: The Role of Education and Economic Industry	377
Martina SIMKOVA and Jaroslav SIXTA	
24.1. Introduction	377
24.2. The setting of the statutory retirement age	378
24.3. The economic status of elderly workers	379
24.4. The structure of working people by factors	380
24.5. The change in the number of workers	382
24.6. Conclusion	385
24.7. Acknowledgment	385
24.8. References	386
List of Authors	387
Index	393
Summary of Volume 1	395
