

## Table of Contents

<b>Introduction</b> . . . . .	ix
I.1. Bibliography . . . . .	xv
<b>Chapter 1. Logistics Challenges</b> . . . . .	1
1.1. Introduction. . . . .	1
1.2. Forward supply chain . . . . .	2
1.2.1. Structure and actors . . . . .	2
1.2.2. Flows . . . . .	4
1.2.3. Design and management objectives . . . . .	5
1.3. Higher, further, bigger . . . . .	5
1.3.1. Suppliers throughout the world. . . . .	6
1.3.2. International customers . . . . .	7
1.3.3. More complex businesses . . . . .	8
1.3.4. Transportation networks. . . . .	11
1.4. Nothing is lost, nothing is created, everything goes somewhere . . . . .	14
1.4.1. From suppliers to customers . . . . .	14
1.4.2. Unit loads and packaging . . . . .	16
1.4.3. “Adding insult to injury” . . . . .	18
1.5. Nothing goes well anymore . . . . .	19
1.5.1. Environmental concerns . . . . .	19
1.5.2. Social concerns . . . . .	21
1.5.3. Bad output management. . . . .	23
1.5.4. Product design in a one-way direction . . . . .	25
1.6. Conclusion . . . . .	27
1.7. Bibliography . . . . .	28

<b>Chapter 2. Reverse Logistics Engineering</b> . . . . .	35
2.1. Introduction. . . . .	35
2.2. Definition . . . . .	36
2.2.1. Reverse distribution . . . . .	36
2.2.2. Reverse logistics . . . . .	36
2.3. Types of returns . . . . .	38
2.4. Generic process . . . . .	39
2.4.1. Gatekeeping stage . . . . .	43
2.4.2. Collection stage . . . . .	49
2.4.3. Sorting stage . . . . .	54
2.4.4. Processing stage. . . . .	56
2.5. Shipping or redistribution system. . . . .	74
2.6. Information system . . . . .	77
2.7. Coordinating . . . . .	80
2.8. Performance measurement . . . . .	83
2.9. Conclusion . . . . .	86
2.10. Bibliography . . . . .	87
<b>Chapter 3. Ecodesign</b> . . . . .	89
3.1. Introduction. . . . .	89
3.2. Sustainable development . . . . .	91
3.2.1. Reducing climate changes. . . . .	92
3.2.1.1. The 1992 convention. . . . .	92
3.2.1.2. Kyoto Protocol . . . . .	93
3.2.1.3. Vienna conference . . . . .	93
3.2.2. Reducing and revalorizing waste. . . . .	94
3.2.3. Controlling natural resource consumption . . . . .	95
3.2.4. Implementing an environmental management system (EMS). . . . .	95
3.3. Ecodesign . . . . .	96
3.3.1. Directives, norms, and principles . . . . .	100
3.3.2. Implementation . . . . .	101
3.3.3. Indicators. . . . .	104
3.4. Ecodesign approach within companies. . . . .	106
3.4.1. Corporate citizen . . . . .	108
3.4.2. Implementation of the approach . . . . .	109
3.5. Conclusion . . . . .	124
3.6. Bibliography . . . . .	125
<b>Chapter 4. Value Loops</b> . . . . .	129
4.1. Network design and management integrating reverse logistics . . . . .	133
4.1.1. General strategic decisions . . . . .	134

4.1.1.1. Target markets . . . . .	136
4.1.1.2. Networks . . . . .	137
4.1.1.3. Products . . . . .	139
4.1.1.4. Processes . . . . .	140
4.1.2. Strategic, tactical, and operational decisions specific to the activities . . . . .	141
4.1.2.1. Customer service . . . . .	141
4.1.2.2. Collection and sorting . . . . .	142
4.1.2.3. Processing . . . . .	144
4.1.2.4. Redistribution . . . . .	145
4.1.2.5. Material flows and stocks . . . . .	146
4.2. Definition of the value . . . . .	152
4.2.1. Extended supply of products and services . . . . .	155
4.2.2. Marketing and customer service policy . . . . .	161
4.2.3. Environmental, social, and economic values . . . . .	163
4.2.4. Uncertainties . . . . .	168
4.3. Monitoring and control of the value on the life cycle . . . . .	172
4.3.1. Integrated information system and decision support system. . . . .	174
4.3.2. Traceability tools . . . . .	179
4.3.3. Performance indicators . . . . .	181
4.4. Partnership . . . . .	185
4.4.1. Partnership between and within logistics network. . . . .	187
4.4.1.1. Partnership with consumers . . . . .	190
4.4.2. Partnership with governmental and not-for-profit organizations . . . . .	192
4.5. Conclusion . . . . .	196
4.6. Bibliography . . . . .	197
<b>Conclusion . . . . .</b>	<b>213</b>
<b>Index . . . . .</b>	<b>215</b>
