

Table of Contents

Chapter 1. Assessing the Community Maturity from a Knowledge Management Perspective	1
Imed BOUGHZALA	
1.1. Introduction.	2
1.2. Background.	4
1.2.1. Maturity models.	4
1.2.2. Knowledge-oriented maturity models	5
1.3. Method	9
1.4. The CoMM	10
1.4.1. The development	10
1.4.2. The description	13
1.5. Application within a CKO professional association	18
1.5.1. Overview of need	18
1.5.2. Field application steps	19
1.5.3. Findings	20
1.5.4. Reflection on the field application of CoMM	23
1.6. Discussion and implications	24
1.7. Conclusion	25
1.8. Bibliography	26
1.9. Appendix	31
Chapter 2. Social Networks: Leveraging User Social Data to Empower Collective Intelligence	33
Xuan Truong VU, Marie-Hélène ABEL and Pierre MORIZET-MAHOUEAUX	
2.1. Introduction.	34
2.2. Collective intelligence by user-centered social network aggregation	35
2.3. Related works	37
2.4. Proposed system	40

2.4.1. User-centered social network aggregation	41
2.4.2. Personalized information filtering	45
2.4.3. Collaborative knowledge management	48
2.5. Decision support	50
2.6. Use scenario	53
2.7. Prototype	54
2.8. Conclusions and future work	57
2.9. Acknowledgment	58
2.10. Bibliography	58
Chapter 3. Sociocultural Knowledge Management toward the Adaptation of a CSCL Environment	61
Fadoua OUAMANI, Narjès Bellamine Ben SAOUD and Henda Hajjami Ben GHEZALA	
3.1. Introduction.	61
3.2. The concept of culture and sociocultural factors	63
3.2.1. Culture in ethnology	64
3.2.2. Culture in psychology	65
3.2.3. Cultural properties	66
3.2.4. Models of national culture.	67
3.2.5. Discussion	70
3.3. The relation between sociocultural human characteristics, KM and CSCL	71
3.3.1. CSCL and knowledge sharing	71
3.3.2. Culture, human mind and KM	73
3.3.3. Discussion	74
3.4. Sociocultural considerations in collaborative environments	75
3.4.1. Study of existing culturally sensitive tools	75
3.4.2. Limitations and findings.	76
3.5. The proposed ontology-based sociocultural user profile	78
3.6. The conceptual ontology framework based adaptation approach	82
3.7. The sociocultural aware KM system for CSCL.	83
3.8. Conclusion and ongoing work.	86
3.9. Bibliography	87
Chapter 4. An Argumentation-based Rough Set Theory for Knowledge Management	93
Sarra BOUZAYANE, Imène BRIGUI-CHTIQUI, Inès SAAD	
4.1. Introduction.	93
4.2. Background.	95
4.2.1. Dominance-based rough set approach (DRSA)	95
4.2.2. Argumentation	97

4.2.3. Multiagent system	104
4.3. Related work	106
4.4. Multiagent argumentative approach	116
4.4.1. Interaction protocol.	116
4.4.2. Arguments	117
4.4.3. Argument and counter-argument evaluation	120
4.4.4. Counter-argument construction.	121
4.5. Example.	123
4.6. Conclusion	126
4.7. Bibliography	126
Chapter 5. Considering Tacit Knowledge When Bridging Knowledge Management and Information Systems for Collaborative Decision-Making.	131
Pierre-Emmanuel ARDUIN, Camille ROSENTHAL-SABROUX, and Michel GRUNDSTEIN.	
5.1. Introduction.	132
5.2. Background theory	133
5.2.1. A vision of knowledge within the organization	133
5.2.2. Ethnographic workplace study: participation as a means to observe	134
5.2.3. Incommensurability: when communication breaks down	136
5.3. Proposition.	138
5.3.1. Fieldwork through participant observation	139
5.3.2. Highlighting evidences and levels with ISO/IEC 15504	141
5.3.3. Rating the attributes and assessing tacit knowledge consideration	146
5.4. Case study	149
5.4.1. Describing the field.	149
5.4.2. Discussing the collected data and the results	151
5.5. Conclusions.	154
5.6. Acknowledgments	155
5.7. Bibliography	156
Chapter 6. Relevant Information Management in Microblogs	159
Soumaya CHERICHI and Rim FAIZ	
6.1. Introduction.	160
6.2. Twitter IR.	161
6.3. Features for tweet ranking	163
6.3.1. Feature set	164
6.3.2. Metric measure of the impact of criteria to improve search results.	168
6.4. Experimental evaluation	172

6.4.1. Description of the collection	172
6.4.2. Results	173
6.5. Conclusion	176
6.6. Bibliography	177
Chapter 7. A Legal Knowledge Management System Based on Core Ontology	183
Karima DHOUIB and Faïez GARGOURI	
7.1. Introduction.	183
7.2. Legal KM.	185
7.2.1. Legal portals.	186
7.2.2. Legal decision support systems and legal expert systems	187
7.2.3. Legal case-based reasoning	187
7.2.4. Legal ontology	188
7.3. Functional architecture of the system	188
7.4. Legal ontology construction approach	189
7.4.1. Existing ontology construction methodologies	190
7.4.2. Our approach	193
7.4.3. Our reference ontological framework	196
7.4.4. Our building blocks	198
7.4.5. Discussion	201
7.5. Jurisprudence decision structuring methodology (JDSM)	202
7.5.1. Thematic document structuring: some related works	203
7.5.2. Our methodology	204
7.6. Conclusion	209
7.7. Bibliography	210
Chapter 8. Foundations for a Core Ontology of an Organization's Processes	215
Mohamed TURKI, Gilles KASSEL, Inès SAAD and Faïez GARGOURI	
8.1. Introduction.	216
8.2. Our reference ontological framework	218
8.2.1. DOLCE.	220
8.2.2. Actions, participation roles and participatory capacities	222
8.2.3. Artifacts	224
8.3. A core ontology of an organization's processes	224
8.3.1. Collective phenomena	226
8.3.2. Organizational phenomena	231
8.3.3. Process of organization	234
8.4. Discussion	240
8.5. Conclusion	243
8.6. Bibliography	244

Chapter 9. A Business Process Evaluation Methodology for Knowledge Management Based on Multicriteria Decision-Making Approach	249
Mohamed TURKI, Inès SAAD, Faïez GARGOURI and Gilles KASSEL	
9.1. Introduction.	249
9.2. Related works	252
9.3. Dominance-based rough set approach	254
9.4. BP evaluation methodology	256
9.4.1. Phase 1: preference model construction.	257
9.4.2. Phase 2: exploitation of the preference model	262
9.5. The decision support system for identifying sensitive processes OP-DSS.	264
9.5.1. Graphical interface	264
9.5.2. Model base.	265
9.5.3. Database	265
9.5.4. Knowledge base.	267
9.5.5. Implementation	268
9.6. Case study	271
9.7. Conclusion and futures works	272
9.8. Bibliography	273
9.9. Appendix 1. The set of criteria	275
9.10. Appendix 2. Contribution degree computing algorithm	277
Chapter 10. A Collaborative Approach for Optimizing Continuity between Knowledge Codification with Knowledge Engineering Methods and Knowledge Transfer.	279
Thierno TOUNKARA	
10.1. Introduction	279
10.2. Factors influencing knowledge transfer	280
10.2.1. Characteristics of knowledge	281
10.2.2. Knowledge transfer channels	283
10.2.3. Absorptive capacity of knowledge receivers	284
10.2.4. Cultural and organizational contexts	285
10.3. Modes of knowledge transfer	286
10.3.1. Social exchange versus codification	286
10.3.2. Knowledge transfer models	286
10.4. Research methodology	290
10.4.1. Literature review	290
10.4.2. Focus groups for data collection and generation of testable propositions.	290
10.5. Codifying with knowledge engineering methods: barriers for knowledge transfer	293

10.5.1. Multiplicity of formalisms	294
10.5.2. Heterogeneity of readers profiles	295
10.5.3. Background	295
10.5.4. Contexts of use	295
10.5.5. Preferences for logical structuring and understanding profile	295
10.5.6. Level of description of complex knowledge	296
10.5.7. Level of description of specific knowledge	296
10.5.8. Exchange channels to increase diffusion/transfer	297
10.6. Methodology for knowledge transfer efficiency	298
10.6.1. Capturing and codifying tacit knowledge domain	298
10.6.2. Defining and formalizing exchanges between groups of actors involved in the knowledge transfer process	298
10.7. Hydro Quebec case study	302
10.7.1. Approach	303
10.7.2. Results and implications	304
10.8. Discussion	305
10.8.1. About completeness of knowledge	305
10.8.2. Exploring ontologies for knowledge transfer	305
10.8.3. About costs	306
10.9. Conclusion	306
10.10. Bibliography	307
List of Authors	311
Index	313
